By Associated Press.
London, June 24. — A dispatch from Amsterdam to the Central News says that the Germans, following their victory in Galicia, have already made preparations for another attempt to capture Warsaw.

According to this dispatch German troops from Galicia already have been transferred to the Bzura front, west of Warsaw.

Petrograd, June 24.—The Russian retirement through Galicia, entailing the evacuation of Lemberg, is likened by Russian critics to General Joffre's retreat to the Marne, in the early part of the war.

They explain that such a successful retirement, keeping the army intact, is no wise equivalent to a defeat.

The evacuation of Lemberg, it is felt here, can have no strategic importance, other than the loss of a large, populated center.

Berlin, June 24.—A further victory for the Austro-German forces in Galicia was announced today at army headquarters. The army of General von Linsingen, which has been meeting with stubborn opposition from the Russians along the Dniester river front has succeeded in crossing the river.

London, June 24.—The fall of Lemberg is being followed, according to Berlin advices, by a general Russian retreat over a wide front.

In the Lemberg district the victorious Austro-German armies are said to be driving the Russians eastward, while to the west the armies of Emperor Nicholas are falling back from the country northwest of Przemyśl, near the Russian border, and as far north as the district of Kielce, in Russian Poland, about 100 miles from Warsaw.

The Berlin dispatch says the Russians near Lemberg kept up their resistance to the last, their lines being cut in the north and finally in the center, before the city.

Hostilities are continuing with varying degrees of intensity along the whole Italian front, but apparently the invasion of Austria has been checked by the reinforcements brought in from the Galician front.

The Turkish forces in the Caucasus which have recently undertaken a new offensive movement, are said to have captured positions along the front of nearly 2 miles near Olti, the Russians fleeing eastward.

The Berlin newspaper Tages Zeitung, which was suspended on Monday for its unfriendly utterances concerning the United States, was permitted today to resume publication.

Seven British fishing vessels have been sunk by a German submarine off the coast of Scotland. Most of the crews were saved.

A Paris announcement today gives

details of land operations on the north side of the Dardanelles, between June 1 and 8, and recites that as a result of attacks by the French and British a gain of from 150 to 400 yards along a front of over a mile was made. British troops took over 500 prisoners.

Verona, Italy, June 24.—According to reliable information that has reached Verona, the Austrians have received such reinforcements as to enable them to take the offensive throughout the front, but are constantly being repulsed everywhere with heavy losses.

Berlin, June 24. — The Overseas News Agency today quotes an official German newspaper as saying that, notwithstanding reports to the contrary, during the whole war no hostile government has approached Germany, directly or indirectly, with peace offers.

The same agency says in political circles the fall of Lemberg is considered a crushing defeat, morally and politically, for pan-Slavism.

Whether it will result in the breaking down of Russia's military operations is considered questionable.

WILL SHUN BELLIGERENTS

By Associated Press.

Washington, June 24.—Because of reports that United States mails destined for Norway, Sweden, Denmark and the Netherlands, in transit through belligerent countries have been opened and censored, Postmaster General Burleson today directed that until further orders all mails for those countries be sent on vessels sailing direct, and not touching at any port of the belligerents.

PRESIDENT AND HOUSE DISCUSS WAR

By Associated Press.

New York, June 24. — President Wilson, enroute from Washington to his summer home at Cornish, N. H., stopped off today at Roslyn, L. I., to spend the day with his intimate friend Colonel E. M. House and to receive at first hand the latter's impression of the war situation in Europe and the developments thereto

affecting the United States.

At the country estate of Colonel House they were to spend the day free from interruption by visitors in discussing Colonel House's trip and his conferences abroad with high officials of the warring powers.

Colonel House's information was gained in London, where he visited Sir Edward Grey, the British minister of foreign affairs, in Paris, where he delivered a letter from President Wilson to President Poincaré of France, and in Berlin, where he called on Von Bethmann Hollweg, the German imperial chancellor.

The entire forenoon was spent by the president and Colonel House in consultation. After luncheon the conference was continued.

THAW IS TO TAKE STAND AGAINST SELF

By Associated Press.

New York, June 24. — Harry K. Thaw will be called by counsel for the state as a witness against himself in the hearing now in progress here to determine whether he is sane, according to an announcement today by state's attorneys.

The state's purpose, it is understood, is to avoid the restrictions

which would limit his cross examination, and to lay his story of the killing of Stanford White before the jury before it retires to consider a verdict.

In explanation of his plan to call Thaw as a state witness a deputy attorney said:

"I will thus be able to ask Thaw about anything that has happened since the day he was born."

Thaw said, before the taking of testimony began, that he had no fear of District Attorney Cook's examination.

"I do not care what he asks me," he said. "He can go as far as he likes."

Several witnesses testified they thought Thaw, now sane.

The Countess Helen Jangle D'Ardey, who is only sixteen, has been sentenced to three months' imprisonment by a German court martial. She was walking in Ghent with her grandmother, and both were wearing medals with King Albert's picture, according to a story from London. And as a result of a battle of words with an officer the young girl was arrested.

ANOTHER ATTACK BY TAGES ZEITUNG

Berlin Newspaper, Suppressed for Hostility Toward U. S., Reappears With Another Attack Calculated to Poison Minds of Readers—Makes Some Tall Claims About President.

By Associated Press.

Berlin, June 24.—The first issue of the Tages-Zeitung to appear since its suspension, contains another article by Count von Reventlow, which makes a covert attack upon President Wilson in connection with reports that a peace conference is to be held in Switzerland, supposedly at the instigation of the president.

After mentioning these reports, the count says:

"Meanwhile, President Wilson has closed the Panama Canal to shipping trade, in order that transportation

of ammunition and other war materials of eastern harbors of the United States to Vladivostok, for the increasing of the Russian fighting strength, shall not suffer interruption, and over the Atlantic, at the same time, are voyaging from the United States floating arsenals and ammunition depots, in order that the cries for help from Great Britain and France shall be silenced as soon as possible.

"And again, at the same time, President Wilson demands that a sure and unimpeded journey be guaranteed these floating arsenals."

former colonial secretary of the German Empire, who sailed from this city aboard the steamer June 12, under guarantees of safe conduct given by representatives in America of the allied powers.

All that was definitely known here was that the vessel's voyage to Bergen, Norway, had been interrupted, and that she had been taken into Kirkwall and detained there.

This intelligence reached New York after a two days' delay by the British censors.

Later — The Norwegian steamer Bergensfjord together with Dr. Dernberg, has been released by the British authorities and will sail from Kirkwall tonight.

BATTLE FOR MEXICO CITY NOW EXPECTED

By Associated Press.

El Paso, June 24.—A Carranza army under General Pablo Gonzales has reached the suburbs of Mexico City, according to a telegram received by a Carranza agency here today from Vera Cruz dated yesterday.

Galveston, Texas, June 24.—Zapata forces in Mexico City have entrenched themselves, according to information reaching the Constitutionalist consulate here today from General Gonzales.

For this reason, the general says, and because he wishes to spare the city the horror of an attack, he has delayed his movement of occupation. He expects the surrender of the capital by the Zapata forces, or their evacuation of it.

Reports from General Obregon indicate that he expects to occupy Aguascalientes before the end of the week.

According to a statement last night by the Carranza agency at El Paso, a message from Vera Cruz had stated that General Obregon had already occupied Aguascalientes. The announcement has met with denials from Villa representatives.

Carranza officials at El Paso state the occupation was accomplished without heavy fighting and that Zacatecas, 75 miles north, will be the next point of attack.

El Paso, Texas, June 24.—Carranza adherents declare the evacuation of Aguascalientes a serious blow to the Villa cause.

They maintain Villa's army is poorly fed and equipped, and point out that the progress of the Carranza army under Obregon from Celaya northward, approximately 130 miles, in the last few months, is evidence of the waning of General Villa's effectiveness.

ACCUSED TELLS STORY

Lima, June 24.—Dorance S. Riddle, on the stand here today in his defense in the first degree murder trial for the killing of his sweetheart told the story of the crime in the courtroom.

He said the girl had struck him before he grabbed her and choked her. He declared he did not intend to kill her.

STILL ANOTHER SMALL QUAKE

El Centro, Cal., June 24.—Another slight earthquake shock was felt here at 8:30 a. m. today. It shook bricks from several buildings damaged by shocks Tuesday night.

The losses caused by the quake Tuesday night will not exceed \$500,000, it is believed.

AMERICAN COLONY IS IN DANGER

Washington, June 24.—Conditions in Mexico have reached such a pass that officials here believe the United States can not much longer stand by without taking action. American lives and property are in danger in the Yaqui valley and there is serious disorder in other sections of the republic.

According to advices received here from various quarters, Mexico is in a more turbulent state today than it has been at any time since the revolution began. Doubt is expressed that the Villista forces will be able to suppress the Yaqui Indians in Sonora, and there is fear that this government will be compelled within a few days to send an expeditionary force inland to protect the American colony, located about twenty miles from Guaymas. There are other spots in Mexico where similar drastic action by the United States seems to be imperative.

With thousands officially reported to be starving south of the Rio Grande and other thousands suffering from pestilence, the American Red Cross announced that its funds available for Mexican relief work are exhausted. The Red Cross has sent out urgent appeals for contributions of food and money to meet this alarming situation.

Advices received here report the killing of foreigners near Vera Cruz. Nineteen persons were killed when a train on the Vera Cruz and Isthmus railroad south of Vera Cruz was fired on, presumably by Zapatistas. Reports of the attack, which occurred last Monday, were received at the state department in dispatches from Consul Canada, who also reported that the railway between Vera Cruz and Mexico City had been cut.

Further fighting between the Yaqui Indians and Villistas is reported in the dispatch received from Admiral Howland. This dispatch shows that the Indians are still on the warpath, despite the efforts of Governor Maytorena to suppress them.

Carranza Still Obdurate. General Carranza has informed the United States government that under no circumstances will he treat with General Villa, that he will not compromise with his opponents, and that he will continue his plan to crush his adversaries by military campaign. Carranza said that he would soon dominate the situation and would grant amnesty to all who were not guilty of crimes. General Villa and his associates, however, must either leave the country or be tried by a military court.

CORNS CURED WHILE YOU WALK

Dr. Hunt's New Penetration Method
Roots 'em Out in Two Days.
PRICE ONLY 10c.

Your corns are as good as gone the moment you buy a ten cent box of Dr. Hunt's New Corn Cure. This is the new penetration method that everybody's talking about. Dr. Hunt spent a life-time of research in developing this new principle. Millions of packages already sold.

The method is simplicity itself. Dr. Hunt's New Corn Cure comes in easy-to-apply plaster form. Six plasters in a box. Trim plaster size of corn and apply. You get ease the moment you use it. Instantly the penetration process begins. You can wear your regular shoes while a cure is being effected. You can dance. Nothing to "bulk" up your shoe. No caustic ingredients. No paring necessary. Your feet are really comfortable. And in two days that corn lifts off bodily.

Sold by druggists and shoe dealers everywhere for 10 cents a box. Money back if not delighted. Take no other if you want to be sure of a quick, easy, permanent cure. If unable to secure a box, send ten cents in stamps to American Chemical Company, Sidney, Ohio.

BRITISH UNIONS MUST RECRUIT MEN

London, June 24.—David Lloyd George, minister of munitions, has given British labor seven days in which to make good the promise of its leaders that men will rally to the factories in sufficient numbers to produce a maximum supply of munitions of war. The seven days begin today. This was the most striking statement in the new minister's speech in the house of commons in the course of outlining the munitions measure, which is designed to control not only the output but the men responsible for the output. The munitions bill makes strikes and lockouts illegal.

OHIO BANKERS ELECT OFFICERS

Cedar Point, O., June 24.—The Ohio Bankers' association at its state convention unanimously adopted a resolution recommending legislation placing building and loan associations in the state banking department.

A. B. Leach, a New York banker, reviewed the effect of the European war on financial conditions here and abroad and declared that the United States should be the world's banker after the struggle ends. John Barrett, director of the Pan-American union, told the bankers the United States would be first commercially in South America if the federal act was amended to permit the organization of a great central west bank to do business exclusively in South America.

Officers elected are: President, O. N. Sams, Hillsboro; vice president, A. E. Adams, Youngstown; secretary, S. D. Rankin, Columbus; treasurer, W. S. Lamb, Toledo.

ASLEEP ONE YEAR; DIES IN COLUMBUS

Columbus, June 24.—One year ago Henry C. Mankey, seventy-five, went to his room at the usual time to retire. Since then he never left his bed. During those twelve months, with the exception of a few minutes at different intervals, Mr. Mankey had been asleep. All this while his wife fed him the same as she would an infant. Mankey, who died last night, was a civil war veteran.

GERMAN SPY PUT TO DEATH

London, June 24.—F. Robert Muller, who on June 4 was found guilty at the Old Bailey police court of being a German spy, was executed in the Tower of London by shooting. Another alleged German spy, Robert Rosenthal, who is said by the police to have confessed that he was sent to England by the German admiralty to obtain information on naval matters, is to be court-martialed.

GERMANS SAY RUSS CRUSHED

London, June 24.—Lemberg, the capital of Galicia, taken by the Russians from the Austrians on Sept. 3, has been recaptured by the Austro-German forces. The first divisions of the Teutons entered the city without serious opposition and under the eyes of Emperor William.

The Russian armies have retired farther to the east. While the rear guard of 40,000 men, which has desperately striven to stem the overwhelming advance since Monday, has been cut up or taken prisoners, the main body of troops, with the heaviest field guns, has been able to withdraw on the railroad to Brody, the border town, or along the line of that railway. It is doubtful whether Russia will endeavor to make another stand along the Lemberg-Brody route within Austrian territory.

During the fighting for Lemberg, from June 2, the Austrians and Germans captured 60,000 Russian soldiers and have taken many Russian guns.

Whether the fall of Lemberg means that the Russian army operating south of it in southern Galicia is effectively cut off from the army to the north, stretching across Poland from the Baltic, can not yet be said. Vienna and Berlin say this is the case and that the Russian arms have received a blow from which they can not recover.

If the stroke proves as crushing as the Teutons predict, its effect, military observers here say, soon should be felt in the transfer of vast German forces to the west, where for days they have been hard pressed by the French.

Berlin and Vienna are reported to be filled with joy over the victory of their forces. Archduke Frederick of Austria, commander-in-chief of the Austrian forces, and General August von Mackensen of the German army, both have been made field marshals of the Prussian army in recognition of their services in the Galician campaign.

The Italians have taken all of the defenses surrounding Malborghetto, and are now storming the town itself according to a dispatch from Laibach, Austria, arriving here by way of Geneva. Malborghetto has been the first important objective of the Italian army which has been slowly advancing along the railroad to Tarvis practically since the war began.

Desperate fighting continues in Belgium and northern France. In the Vosges the Germans claim to have taken Hill 831, at Bantsept, which has been hotly contested for months. This hill dominates all the surrounding country.

OHIO SPANISH VETERANS ELECT

Mansfield, O., June 24.—Alexander Frank of Cincinnati was elected commander of the United Spanish War Veterans at the annual meeting of the twelfth annual encampment here. The council of administration will decide upon the place for next year's convention. Xenia and Lima, Ohio, are the leading candidates for the honor. The United Spanish War Veterans auxiliary also closed its session by electing Mrs. Belle Colwell, Akron, department commander. Business sessions of the Department of Ohio, G. A. R., and the five other allied patriotic organizations, have been opened.

GOV. WILLIS STARTS PROBE

Columbus, June 24.—Governor Willis admits that charges have been filed against the management of the Boys' industrial home near Lancaster. "They have been coming in for some time," he said. "Their exact nature I can not discuss, because I don't know enough about them." The governor indicated he would begin at once an inquiry into the Lancaster trouble. Captain R. U. Hastings, the superintendent, would make no statement regarding the charges. The governor is reported to have decided on an immediate investigation to learn whether there was anything besides political motive behind the charges.

CARNEGIE AGENTS REFUSE TO ASSIST

Washington, June 24.—It became known here that representatives of Andrew Carnegie have refused to extend any support to the labor peace movement that has been set in motion by Representative Buchanan of Illinois and former Representative Fowler of that state. Inquiry developed that the labor leaders concerned approached agents of some of the Carnegie peace societies and that funds were refused. As a result those identified with the labor peace movement are very indignant, declaring that if the Carnegie societies are as deeply interested in the question of disarmament as has been represented, they should support any agency formed to attain this end.

UNCLE SAM'S STAND IN THE FRYE MATTER

Washington, June 24.—The reply of the United States to the German note in the case of the American schooner William P. Frye was forwarded to Ambassador Gerard for presentation to the Berlin foreign office. This government protests against the principle enunciated by Germany that it has a right to refer such cases to prize courts irrespective of treaty rights and international obligations.

The Frye was sunk by the Prinz Eitel Friedrich, the German raider, in January last. The United States made a claim for damages and Germany admitted her responsibility and agreed to pay damages. Later, and before Germany formally communicated with America on the matter, Germany sent the case to a prize court. In the note just forwarded the United States makes a protest against this procedure, being anxious to be placed on record as opposed to a reference to a prize court. The United States asked that this case be settled through diplomatic channels, but Germany contended that she was obliged to follow the prize court course. The latter method of settling the case will take much longer.

FRENCH TROOPS ENGAGE TURKS

Paris, June 24.—The war office announces gains made by French troops at the Dardanelles. Two attacks were delivered by the left wing, the Turks being driven from two trenches. These are being held despite violent counterattacks. On the French right, where the terrain is more difficult, the enemy succeeded in retaking entrenchments, but these were recaptured later by a bayonet attack. Counterattacks were repelled with heavy loss to the enemy. The battleship St. Louis effectively bombarded the batteries on the Asiatic side of the strait. On the French left the British army gave efficacious assistance.

SPANISH CABINET WILL NOT RESIGN

London, June 24.—The British cruiser Roxburgh was torpedoed by a German submarine in the North sea last Sunday, according to an official statement issued by the admiralty. The cruiser was not damaged so seriously but that she could make port under her own steam. There were no casualties. The Roxburgh is of 10,850 tons displacement.

Dust and the Lungs.
Where there is less dust there is less tuberculosis. This disease is responsible for almost exactly one-quarter of all the deaths among wage earners in this country between the ages of fifteen and thirty-five. It is also responsible for almost exactly one out of every three deaths that come between the ages of twenty and forty years to both male and female wage earners. The death rate from tuberculosis among agriculturists may be put at 106 per hundred thousand. In comparison with this the death rate from tuberculosis among those engaged in cotton manufacture is 202; brass work, 279; copper work, 294; glass making, 295; earthenware, 333; cutlery, 382; file making, 402. Other statistics might be given showing the same thing—namely, that tuberculosis is intimately associated with certain occupations, especially those giving rise to dust, metallic, mineral or organic.

New York, June 24.—Harry Thaw was the first witness in the trial to have his sanity tested by a jury. He appeared calm and collected. He told of his escape from Matteawan Aug. 17, 1913, and his subsequent movements in Canada and New Hampshire. His story was the same substantially as he related in the conspiracy trial last March. He identified his mother, sister and brother, who were sitting in the courtroom, at the request of his attorney. Thaw was asked to tell of the examination of his sanity made in Manchester by the federal commission. He named the member of the

The Indiana Indictments

More than five score of indictments charging the perpetration of fraud in elections, have been returned against Indiana politicians and officials of more or less prominence. Some of the men indicted have enjoyed prominence and success in politics which covers a much wider range of territory than the state of Indiana. Among those men is "Tom" Taggart, at present the Democratic national committeeman from Indiana, and Mayor Joseph E. Bell, of Indianapolis, also a Democrat.

Some Republicans and Progressives are also caught in the dragnet which has been pulled through the bayou of Indiana politics indicating that, while the majority of accused men claim allegiance to the Democratic party, that the "organization" knew no party.

The more prominent of the indicted men face charges of bribery and blackmail.

It is proper, of course, that the public should not conclude that the accused men are guilty in advance of their trial—that's the theory of the law. It will be difficult, however, for the majority of people to retain for the accused men a presumption of innocence until after the final trial, especially when public rumor has directed suspicion against them for a long time.

Political leaders who entertain any lingering doubt that the old regime of fraud and corruption in politics is passing rapidly away find little to strengthen that doubt in the upheavals which have occurred in Indiana within the last year.

It is growing more difficult each year for the men who have prospered by crooked political acts to escape punishment for their misdeeds.

The people are awake to the fact that vice of the very worst type has been rampant and they are determined to stamp it out.

Indiana, judging from the upheavals at Terre Haute and Indianapolis has been a little slow to realize that the crooked men and the crooked methods must go, but the crusade is on now in earnest.

The Joliet Tragedy

The brutal murder of Mrs. Edward M. Allen, wife of Warden Allen of Joliet, Illinois, penitentiary, has furnished a strong argument for those who oppose the honor system among convicts.

The crime is one of the most brutal and shocking ever perpetrated and must have been the act of one of the "trusty" or honor-prisoners.

The murdered woman was beautiful and attractive and loved by all who knew her. Among the unfortunate convicts she was known as the angel of the big prison because of her interest in their behalf and because it was largely through her efforts that the honor system was so generally adopted at Joliet.

Circumstances indicate that the crime was committed by a trusty who was the personal servant of the warden and his family, but there is no positive evidence of his guilt and the most rigid grilling, by officials, has failed, so far, to bring a confession.

Warden Allen, although prostrated with grief still has faith in the honor system and believes it the only humane method of dealing with convicts.

Whether the honor system, however, has been put into practice too rapidly in our big prisons, whether the privileges and the opportunities which the system affords are given to convicts before they are mentally and morally prepared to receive them, is a serious question. Certainly one demon confined at Joliet was given privileges under the honor system before he knew how to use them and the mistake has exacted an awful price.

The tragedy at Joliet teaches that the bestowal of the privileges of the honor system should be made with due regard to every circumstance in each case and pertaining only to the individual prisoner.

There can be no rule or classification of prisoners, according to time of service, or behavior in prison which would render a bestowal of the privileges of the honor system upon a body or class of prisoners, anything but dangerous.

Poetry For Today

THE LAND OF "PRETTY SOON."

I know of a land where the streets are paved
With the things we meant to achieve.
It is walled with the money we meant to have saved
And the pleasures for which we grieve.

The kind words unspoken, the promises broken,
And many a coveted boon
Are stowed away there in that land somewhere—
The land of "Pretty Soon."

There are uncut jewels, of possible fame,
Lying about in the dust,
And many a noble and lofty aim
Covered with mold and rust.

And, oh, this place, while it seems so near,
Is further away than the moon!
Though our purpose is fair, yet we never get there—
The land of "Pretty Soon."

It is further at noon than it is at dawn,
Further at night than at noon;
Oh! let us beware of that land down there—
The land of "Pretty Soon."

Visitors from a distance to the Panama-Pacific exposition at San Francisco note that one of the old first class residence districts has not been reconstructed. The ruins of the earthquake and fire remain as a memorial of the primitive local nobility and local nobleness of San Francisco. The reason offered to the visitor is that the former dwellers in the mansions which were destroyed have selected other sites for homes and that, as a rule, in the country. This choice was not so much on account of the danger in the city as a desire to live in the country. The finest up to date residences in the cities are flats. They are endurable to people compelled to study convenience and economy. Those who can afford to indulge in comfort seek for it in the country. When they want to be in the city for a few months the flat has some advantages over the big hotel.

The owners of the Wilhelmnia cargo received more than double value from England for holding her up, so it must be profitable sometimes to have trouble in the war zone.

YOU CAN'T

You can't accumulate money without self-denial. Are you looking forward to the day when you will have all you now want and deluding yourself with the idea that you will THEN begin to accumulate money? That day will never dawn for you. Each day will bring a new want and if you continue to indulge in them your life will end in want. Indulgence today means for you future want, while self-denial today means future indulgence. Start a self-denial account today. Watch over it now and in the years to come it will watch over you.

\$25,000 DAMAGES SOUGHT IN SUIT FILED THIS AFTERNOON

William Davidson, Alleging That J. P. Snyder and Anna Snyder Alienated Affections of Wife and Caused Her to Sue for Divorce, Files Action in Common Pleas Court for Damages

Alleging that the defendants, J. P. Snyder and wife, Anna Snyder, alienated the affections of the plaintiff's wife, deprived plaintiff of the society of his wife and child and caused plaintiff's wife to bring suit for divorce, William E. Davidson, brother-in-law of the defendants, early Thursday afternoon filed action in the Common Pleas court in which he asks \$25,000 damages. Logan and Post & Reid represent the plaintiff in the action.

The plaintiff in his petition states that his wife, Jennie Davidson, and Anna Snyder, wife of first named defendant, are sisters, and that from 1901 to 1914 plaintiff, wife and child resided on a 110 acre farm near Good Hope; that 48 acres of the farm belonged to plaintiff's wife and that residue of farm was held under lease by the plaintiff, who states that he improved the 48 acres and enhanced its value.

Continuing the plaintiff says that prior to October, 1914, defendants

wrongfully designed to injure plaintiff and deprive him of the affection and society of his wife and strip plaintiff of his property, resources and business; that on or about October 1, 1914 defendants induced plaintiff's wife to acquiesce in the purchase of certain property in Good Hope, cause sale of live stock and farm chattels, and from proceeds pay for the property; that defendants, with plaintiff's consent and against his known desire, moved the household effects to occupy the premises, and allowing to plaintiff's effects what room was not occupied by the defendants.

The defendants went to the south for the winter, according to the plaintiff, and returned in May, 1915. Plaintiff claims that defendants spirited away his young child and provoked a breach of peace between plaintiff and defendant, caused plaintiff's wife to begin suit for divorce in the Probate Court on June 16, 1915, in which plaintiff says he is wrongfully charged with cruelty, habitual drunkenness, and represented as threatening further cruelty; that an order obtained from the court prevents him from entering his own residence.

In conclusion the plaintiff alleges that the defendants have enticed his wife and child to separate from him, causing him great distress, much expense, etc., and asks judgment in the sum of \$25,000.

FAYETTE MAN WILL SIT IN BIG CASE

Mr. T. T. Beatty, of Selden, has been selected as one of seven farmers in the jury of twelve men who will decide whether the old Capital City Dairy Company is guilty of conspiring to defraud the government out of \$2,000,000 oleomargarine taxes.

Another interesting fact in connection with the case which Mr. Beatty will help decide is that part of the most damaging evidence obtained was unearthed by J. O. Carson, Government sleuth, who headed the delegation of Burns detectives which operated in this city a few years ago, and for whose arrest a warrant was issued in Justice T. N. Craig's court.

Carson, as an employee of the plant, obtained evidence which will be used in the case.

RUNAWAY GIRL DID NOT GET MARRIED

Jacob Kane, of Logtown, father of Lottie Kane, 17, who left her home secretly a few days ago and went to Cincinnati, arrived from the Queen City Wednesday night, with the information that his daughter was living with her married sister there and did not get married as the police believed. She will remain there.

Since the matter has been cleared up, the running away of the girl does not seem of any great importance. When she disappeared, however her parents were gravely alarmed, and the police as well. The police of Cincinnati and other cities were notified and from the former came a report the next day to the local police that the young woman had been located, though not held, in that city. Her father went down immediately.

THIS FORD STORY IS NOT A JOKE TO MACHINE OWNER

Bert Ubanks Is Arrested in Greenfield When His Ford Auto Is Found to Bear Evidence of Carrying Stolen Wool—Authorities Believe Arrest Is Important One.

A Ford with whiskers on. This led to the arrest in Greenfield Wednesday evening, of Bert Ubanks, charged with stealing wool from farmers around Greenfield, southern Fayette, Sabina, Samantha, and other points within a radius of a score of miles from Greenfield. For several weeks farmers in the above mentioned territory have been missing wool. Sometimes just a few fleeces would disappear, while in some instances upward of 50 fleeces have disappeared in one night. Indications were that the wool, in each case, had been carried away by automobile and this led to a careful search and lookout for the man.

A few nights ago I. S. Keaton, residing a short distance from Lyndon, missed 39 fleeces valued at upward of \$100. This was too much! He recalled that on the evening pre-

ceding the theft a Ford automobile had stopped near his residence and a man apparently tinkered about the machine for a couple of hours. It is believed a companion was scouting about for wool, having noticed some newly sheared sheep in a nearby pasture.

Taking the Ford as a tip, and having his suspicions backed up by the belief that a Ford never needs tinkering with—at least two hours at a time—Keaton started out to investigate. He tracked the Ford back past his house and to a point where it had stopped while the wool was being loaded in. Then he started out toward Greenfield, learned at Lyndon that the Ford had passed through there late at night, and thence into Greenfield.

Marshal Willis—erstwhile post-office yegg catcher of note—was notified and took a look about, locating a Ford machine which needed a shave. The machine was literally covered with wool, and the owner, Bert Ubanks, resident of Greenfield, who is married and has a family of ten children, was arrested by Deputy Sheriff Hamm, of Ross county. Ubanks said he was in this city the

night of the theft, but his story did not look good to the officers, and he was taken back to Chillicothe.

A diligent search failed to unearth any of the wool, and a more careful search will be made, not only at

Greenfield, but at another point in Highland county where there is likelihood of the stolen wool being hidden. The authorities are of the opinion that they have made an important catch.

In Social Circles

A reception of exceptional beauty and brilliancy was tendered Rev. A. W. West and his bride, by the members of the First Baptist church Wednesday evening, and largely attended by both parishioners and friends from other churches.

Everything contributed to the pleasure of the occasion, music, flowers, attractive surroundings and a hospitality on the part of the church women that gave to the reception all the charm of the private affair.

Fresh from the hands of the decorators and a perfect wealth of summer bloom permeating the air with fragrance, the handsome church, viewed by many for the first time since its remodeling, was the admiration of the guests. The color scheme of its artistic decorations, sombre creams in the ceiling merging into cathedral grays in the side walls, lent itself as a perfect background to crimson ramblers and ascension lilies which, in graceful profusion, embellished the chancel.

The receiving line formed just in front of the chancel, with Misses Ida Hays, Clara Conn and Mr. Frank Miller introducing Rev. and Mrs. West. Everyone was delighted with Mrs. West, whose charming personality will be a most welcome addition to both church and social circles.

Throughout the evening Mr. James Knelsley and Miss Mable Briggs furnished a fine program of violin and piano music, enhancing the pleasure of the hour.

The young ladies of the church served a delectable summer collation in the Sunday school room, beautifully fitted up as a tea room, and elaborately decorated with Dorothy Perkins roses and lilies. A large bowl of the pink and white roses adorned the table and sweet peas were the favors.

Miss Virginia M. Stevens entertained with a luncheon at her home in South Champion Avenue Tuesday for Miss Roberta Stokesbury, of Washington C. H.—Ohio State Journal, Thursday.

The Wednesday Club of Bloomingburg entertained at the home of Miss Ollie Swope yesterday afternoon with a charming, summer party.

The handsome home, with its spacious rooms and always spontaneous hospitality, had been transformed into a bower of flowers, huneysuckle, hydrangeas and June lilies carrying out an effective white and green color scheme.

A hundred guests including a number outside of club circles found the afternoon one of most delightful sociability.

Delicious fruit punch was on tapis all the time and late in the afternoon a dainty luncheon with the color scheme introduced, was served. Receiving in pretty summer toilettes were Miss Helen Haines, President, Misses Ollie Swope, Hazel McCoy, and Mrs. Forest Haines.

Guests from out of town were Mrs. Charles Swope, Mrs. Will Swope, Mrs. Harry Squires, "Columbus," Mrs. Frank L. Parrett, Mrs. C. J. Thompson, Mrs. D. H. Rowe, of this city.

The beautiful country home of Mr. Andrew Loudner, near Staunton, its immense sweep of rolling green lawn illuminated with hundreds of Japanese lanterns, was the scene of a delightful summer party, with Miss Marie Loudner and brothers John, Leonard and Thomas hospitable entertainers.

A score of young people enjoyed out door games and later music and dancing.

Mrs. Loudner assisted in serving delicious refreshments.

Those present included Misses Marion Mark, Helen Sheridan, Beatrice Overly, Bertha Wood, Florence Cox, Nora Mitchell, Ethel Hidy, May Hidy, Georgiana Snider and Alvin Snider, Rollo Greer, Alfred Judy, Sherman Hidy, Bruce Hidy, Ed Purry of Springfield was an out of town guest.

Complimenting Mrs. Charles Passmore, of St. Louis, Mo., Mrs. Glenn Rodgers gave a charming Bridge Wednesday afternoon.

Pink ramblers bloomed throughout the rooms in luxuriance. Four tables of players enjoyed the game and the delicious refection served at its close.

Mrs. Frank M. Bateman, of Middletown, was also an out of town guest.

Mrs. Earl Barnett gave a pleasurable little luncheon Thursday, entertaining close friends of her guests, Mrs. Willis Stutson, of Indianapolis, Ind., and Mrs. Earl Cockerill, of Dayton.

Mrs. R. O. Young honored the same guests with a pretty luncheon of eight covers Wednesday. The guests confined to intimates.

Mrs. Wm. Vale of Niles, was among the guests.

June, with all its charm and wealth of flowers contributed to a most enjoyable Kensington of the Woman's Guild of the Presbyterian church, Wednesday afternoon at the home of Miss Rose McLean.

Assisting Miss McLean as hostesses in the very cordial hospitalities of the afternoon were Mesdames Robert Howatt, Marion Dunlap, H. M. Roberts, Will Klever, Misses McHenry and Emily Tanzey.

A tempting collation was served while the women visited over their needle work.

Mr. Charles Pratt, son of Mr. and Mrs. Joseph Pratt, and a former Washington boy who retains a host of friends in this city, was united in marriage to Miss Bonnie Nichols on the twenty-second of June at Bakersfield, Cal., Mr. Pratt's present home.

Mr. Pratt left this city about five years ago, spending two years with his father in Panama, after which he joined his brother, Perry, in Bakersfield.

Mr. and Mrs. Pratt left immediately after the ceremony on a trip to the Panama-Pacific exposition and will be at home in Bakersfield after July the first.

Mr. Pratt's Washington relatives and friends are learning of the marriage with much interest.

The Sugar Grove W. C. T. U. held an enjoyable session at the home of Mrs. Maude Cockerill Wednesday afternoon. The day's topic for discussion was "Purity" and interesting papers were read by Mesdames Laura Pine, Anna Hardway and Rilla Silcott. A physical culture drill, led by Mrs. Laura Pine, was a feature of the afternoon. Mrs. Theresa Brakefield and Mrs. Blanche Boyer were in charge of the program.

After a short business session a pleasurable social hour followed, Mrs. Silcott, Mrs. Ed Darlington and Mrs. Ladra Vincent assisting Mrs. Cockerill in serving refreshments.

The next meeting will be held at the home of Mrs. Anna Hardway.

SCOUT PROVES SOME TRAVELER

Donovan Esthes, Boy Scout of Dayton, who passed through this city Tuesday on his way to Huntington, W. Va., reached Chillicothe at one o'clock Tuesday, after completing 86 miles between 5:30 in the morning of that day, making the trip on a bicycle.

His original plan was to stay in this city until one o'clock. When he reached Chillicothe he rested one hour and started once more. He expected to arrive in Huntington on Thursday.

Directors Meeting.

An important meeting of the Board of Directors will be held at 6 o'clock Friday evening.

Camp Site Located.

Secretary Patton visited the jungle country around Bainbridge Wednesday and returned with the information that he had located an ideal spot for the boys' summer camp. The site is on Big Paint creek, a little more than a mile from the Highland caves.

The date for the camp has not been decided, but it will begin about the middle of July.

Swimming Exhibit.

Physical Director McClung has issued invitations to the public to attend the water polo, swimming and diving program at the ice plant open air tank this evening from 6 to 7 o'clock.

Dutch Treat Dinner.

The Dutch Treat Club is urged to be at the session Friday noon in force. Matters pertaining to the recent matinee races will be disposed of. The dinner session this week has been postponed from Thursday to Friday on account of the Fish and Game Association picnic on Thursday.

FINED \$50 AND COSTS

By a typographical error the fine of Carl McGonagle, in common pleas court, Wednesday, read \$5, when it should have read \$50 and

the costs. Carey McGonagle was fined \$5 and the costs as originally stated.

AUTOS PLEDGED FOR GREENFIELD TRIP

A list of the auto owners who have pledged their machines to transport the Men's Bible class of Grace church, to Greenfield next Sunday afternoon, leaving the church corner at one o'clock, sharp, is given below, and it is expected that quite a number of other machines will be added to the list before Sunday afternoon:

MITE SOCIETY SOCIAL

The ladies of Wesley Chapel Mite Society will hold a social on the lawn of Miss Sallie Pursell's home, corner Fayette and East streets, next Wednesday evening, June 30. Good eats and a good time are promised and for 10c.

LAST BRICK LAID ON NORTH STREET

Contractor Knight laid the last brick on the North street paving job Thursday, at a point near the B. & O. railroad track, and the entire street will be thrown open to traffic within the next ten days.

The work of grouting the street is progressing very satisfactorily and the appearance of the completed thoroughfare is such that property owners are wondering why it was not paved years ago.

One instance of preparedness for war may be cited in the work of the Red Cross society in the battle zone of Europe. Of course the society did not maintain and train enough nurses for the heavy demand put upon it. These were already in training in various hospitals of the country. But they were trained, and the society is able to reject all applicants who are not up to the standard in skill and knowledge. In other words, the society was prepared with the machinery of the service and could immediately recruit and set to work a corps of experts.

A False Report

The impression has been conveyed—we know not how, nor do we care—that we are not now using the same serum that has established our reputation as cholera expert.

Report comes to us that some unprincipled competitor has stated that we are not now using the serum originally used.

Be it to inform those who care that I have never changed; I recommend and use the same LIFE IMMUNITY SERUM (guaranteed) as always.

I am prepared, however, to use any commercial serum that the owner desires.

Depending on the serum used, the prices range from 40 cents to 65 cents per head, the latter price being for the serum that is guaranteed to immune for life against hog cholera.

In Angela's Garden

A Fourth of July Incident

By RUBY DOUGLAS

THE facts that Angela's flower garden occupied less than four square feet of space and consisted of nothing more than some wooden boxes fastened to the fire escape at the library window made her none the less enthusiastic about it.

Every morning at 7 she was on the fire escape in her pale blue bonnet attending to her posies, paying especial attention to the washing of the pansies' faces.

On the morning of the Fourth of July Angela opened the window a little earlier than usual. The noises around had awakened her. As she was executing the last movement of

"ARE YOU HURT?" HE ASKED FEARFULLY.

her now gracefully acquired exit from the window a firecracker fell from above and shot off in her garden. Angela started and covered her face.

A young man descended quickly by means of the iron ladder.

"Are you hurt?" he asked fearfully.

Angela uncovered her face and looked up. "No, I think not. I was frightened," she said, looking at the remains of the offending firecracker.

He heaved a sigh of relief.

"It was awfully careless of me," he went on, standing on the bottom rung of the ladder. Angela's garden was hardly large enough for two. "I was just playing 'little boy' again and trying to imagine myself in the country instead of a city apartment. I hope you'll pardon me." There was so much self reproach in his tone that Angela felt that he was truly sorry.

"Of course I'll pardon you," she said, with the merest suggestion of a laugh.

"I won't shoot any more crackers today. A miss is as good as a mile and it might be a mile next time," he said, fingering the leaf of a nasturtium which had found its way up along the railing.

"But, indeed, I won't be out here long," began Angela, wondering why she was not angry because he remained on the ladder. "I'll—"

"You may remain here all day," he interrupted. "I have done enough mischief for one Fourth."

The girl stooped over and began to twist a willful vine into place. The young man could not help hoping that he might some day influence the rare human flower before him along the path he wished it to travel as easily and gently as she twisted the nasturtium about the iron bar.

He turned and began to climb the ladder.

"I am sorry I stepped out so inopportunistically and marred your Independence day," said Angela, looking up at him. "Please don't stop your fireworks for me."

"Marred my Independence day," he said to himself as he closed the window upstairs. "Well, I don't know about that, but she's marred my peace of mind. Jove, she is pretty!"

So the young man in the apartment above Angela's garden found it necessary to rise earlier than was his habit after that Fourth of July morning for a little fresh air.

And Angela? It may be that her flowers received less attention after the Fourth of July. But perhaps the exploding of that firecracker hindered their progress: smoke stunts the growth, they say.

It was raining one morning when Angela opened the window. Close to the ladder stood a pot of flowers which Angela had not planted, one which she had never seen. It was tall and green, and all over it hung little red hearts. She was glad it was raining and that she could not go out among her flowers, because she wanted time to think—time in which to be angry. But some-

GOOD INDEPENDENCE DAY READING.

HAVE you not learned that not stocks or bonds or stately houses or lands or products of mill or field are our country? It is a spiritual thought that is in our minds. It is the flag and what it stands for; it is its glorious history; it is the fireside and the home; it is the high thoughts that are in the heart, born of the inspiration which comes of the story of the fathers, the martyrs to liberty; it is the graveyard into which our grateful country has gathered the unconscious dust of those who died. Here in these things is that thing we love and call our country rather than anything that can be touched or handled. Let me hold the thought—that we owe a duty to our country in peace as well as in war. Perhaps never in the history of our nation have we been so well equipped for war upon the land as now, and yet we have never seen a time in our history when our people were so smitten with a love of peace.—Benjamin Harrison.

how she found it would take more time than she could spare.

The next morning Angela said to the young man on the ladder:

"You'll observe that my garden has been materially increased since the day before yesterday?" And after a minute, in which neither spoke: "Thank you. They are very, very pretty."

Angela continued to wash the faces of the pansies, though they did not need it after the rain of the day before. And the little velvety leaves felt the nervous twitch in the fingers which dressed them.

"I did not know it would rain on them when I put them there," said the young man, glancing at the hearts.

"But it isn't raining now," she said, still looking at the pansies.

"Angela, will you let the sun shine on my heart always as brightly as it is now shining on the flowers' hearts? Look up, Angela. I love you," he said.

"If—if you won't shoot any more firecrackers at me," she replied, with a happy, tremulous little laugh. "It is you who have taken away my independence days now."

WARNING!

GET the glowing punk and the crack-er out;

Let the loud torpedo busily boom; Flutter the banner and bravely shout; Give to the screeching old eagle room; Tell the wondering, listening world once more

Of the glory we claim and our strength and pride;

Let the shout be echoed from shore to shore

And wafted o'er prairie and mountain side;

Let the folds of our glorious flag be tossed

High o'er the heads of unshackled men—

But don't forget that the hand that is lost

Will never grow on your wrist again.

A VICTIM, BUT CHEERFUL.

SHOUT of the glory our ancestors won;

Let the Declaration be proudly read;

Tear a hole through the roof with the rusty gun;

Cause the dogs to hide or to flee in dread;

Let the czars and the kings of the world be told

Of the pride and the strength of a freeborn race;

Let the welkin ring as it rang of old;

Make the land we claim an uproar-ous place;

Shoot and shout all the glorious day;

Whoop of the greatness of freeborn men—

But remember the nose that is shot away

Will never grow on your face again.

LANSING
IS SEC'Y
OF STATE

Washington, June 24.—President
Wilson has appointed Robert Lansing
to the post of secretary of state to
succeed William J. Bryan. Mr. Lan-
sing as counselor of the state depart-
ment has advised the president in law
and precedent in the policy pursued
by the United States toward belliger-
ent governments since the outbreak
of the European war.

Mr. Lansing is a lifelong Democrat.
He has devoted his time to interna-
tional law and diplomacy. Members
of the cabinet who talked with the
president on the subject were unani-
mous in their recommendation that
he should be appointed. Colonel E. M.
House and other close personal
friends of the president advised the
selection, and Mr. Bryan himself is
said to have hoped for the promotion
of Mr. Lansing.

Official announcement of the selec-
tion of Mr. Lansing, who has been
serving as secretary ad interim since
the resignation of Mr. Bryan on June
8, was made in the following state-
ment, issued from the White House:
"Before leaving for a brief rest in New
Hampshire, the president announced
that he had offered the post of secre-
tary of state to Mr. Robert Lansing,
the present counselor of the depart-
ment of state, and that Mr. Lansing
had accepted the appointment."

A commission was prepared, which
President Wilson signed, giving Mr.
Lansing a recess appointment. When
congress reconvenes the nomination
will go to the senate.

Mr. Lansing takes office thoroughly
familiar with the personnel and or-
ganization of the department of state,
and conversant with the confidential
details of all the important negotia-
tions conducted by the United States
since the Wilson administration be-
gan. Moreover, he has a wide knowl-
edge of policies of previous adminis-
trations and especially intimate ac-
quaintance with Mexican affairs and
far eastern problems.

Mr. Lansing is fifty-one years old, a
native of Watertown, N. Y. After
graduation from Amherst college in
1886, Mr. Lansing chose the profes-
sion of his father and ancestors—the
law—and continued in private prac-
tice except when retained by the
American government or foreign na-
tions in important cases. He enjoys
the distinction of having represented
the United States in more interna-
tional arbitrations than any living
American.

The appointment of Mr. Lansing as
secretary creates a vacancy in the of-
fice of counselor of the state depart-
ment. It is not expected that any im-
mediate selection will be made, as
Chandler Anderson, counselor under
the administration of Secretary Knox

PAGE WARNS
AMERICANS

Washington, June 24.—A dispatch
received at the state department from
Ambassador Page at London was
made public by Secretary Lansing in
the hope, it is understood, that only
those Americans who are urged by im-
perative business will go abroad dur-
ing the period of the war. Ambassador
Page advised the department that
Americans are reaching English ports
in increasing numbers without pass-
ports or other identifying documents,
and are in many instances suffering
great hardships as a result.

Poor Humanity.
"Success in aeronautics, as in most
things," said a prominent aeronaut, "is
achieved by patience and faith in one-
self. Pessimists, like my friend's new
gardener on Long Island, would not
accomplish much in work like mine.
This man was raking leaves off the
lawn one fall day when a neighbor
passing by inquired of him:
"Where's the gardener who used to
work here?"
"Dead, sir," was the reply.
"Dead," said the astonished neigh-
bor. Then, musing, he added, "Joined
the great majority, eh?"
"Oh, sir," the gardener interrupted
in a shocked voice, "I wouldn't like to
say that. He was a good enough man
as far as I know."—Lippincott.

Goodyear
Fortified Tires
Cost Users \$5,000,000 Less

Our last price reduction—
made February 1st—will save
Goodyear users about five mil-
lion dollars this year. And that
was our third reduction in two
years, totaling 45 per cent.

Yet Note This

Yet Goodyear Fortified Tires
embody many extras. Five are
costly features found in no other
tire. The rest are found in few.

If we omitted those extras, we
could save on this year's proba-
ble output \$1,635,000. We
could add that to our profits, yet
Goodyear tires would look as
good as now.

This year's
improvements
alone will cost
us \$500,000
this year. All
to give you ex-

tra wear. And we shall spend
\$100,000 on research this year
to find more improvements still.

They Are Yours

These extras belong to you.
They mean less rim-cuts, less
blowouts, less loose treads. They
mean more rubber, more fabric,
more mileage, less trouble. Most
tire users know that, so Good-
year tires far outsell any other.
Prove it yourself this sum-
mer. It will bring you tire con-
tentment.

Any dealer, if you ask him,
will supply you Goodyear tires.

Men are now
adopting Good-
year tires faster
than we can sup-
ply them. We
have never seen
anything like it.

TWELVE INCH SHELLS.

These Big Projectiles Carry a Thirty
Pound Explosive Charge.

High power projectiles are constructed
with cavities in their centers which
contain the explosive charge, the ex-
plosive carried varying with the size
of the projectile. A twelve inch shell,
weighing 870 pounds, carries about
thirty pounds of explosive. The cavity
of such a projectile is about seven
inches in diameter at the base, and
gradually tapers in size toward the
point. After the charge is placed in
the projectile a plug is screwed into
the base, thus sealing up the explosive,
and a fuse is inserted in the center
of the plug extending into the explo-
sive within the cavity.

The fuse, without which the explo-
sive is harmless, depends upon the
high rotary motion of the shell to be-
come active. This rotary motion is
imparted by the rifling of the gun. In
the smooth surface of the tube are cut
the rifling grooves of a width of about
one-eighth inch.

Round the shell, near its base, is a
groove cut for the purpose, is a
compressed what is known as the rotat-
ing band. This band projects above
the surface of the shell and corre-
sponds with the rifling grooves, so
that upon its discharge it is forced
into the rifling, where it acts as a
seal to prevent the escape of the gas
formed by the exploding powder and
gives the shell the required rotary
motion, which keeps it on its true
course with its point always in a di-
rect line ahead.—London Tit Bits.

The Secret of a Good Figure

often lies in the brassiere. Hundreds of thousands of women
wear the Bien-Jolie Brassiere for the reason that they regard
it as necessary as a corset. It supports the bust and back
and gives the figure the youthful outline fashion desires.

Bien-Jolie are the daintiest, most serviceable
garments imaginable. Only the
best of materials are used—for in-
stance, "Washon", a flexible bon-
ing of great durability—absolutely
rustless—permitting laundering without removal.

They come in all styles, and your local Dry Goods dealer
will show them to you on request. If he does not carry them,
he can easily get them for you by writing to us. Send for

52 AUTOS CARRY PICNICKERS TO WATERLOO FOR THE DAY

The Fayette County Fish and Game Association members are having the time of their lives at Waterloo, on Deer Creek.

Early Thursday morning the great string of automobiles—52 in number—left this city, and with banners flying, horns tooting and other indications that the entire bunch was very much alive and anticipated a day of genuine sport, the procession of autos, big autos and little autos, with engines whirring and popping restlessly, wended its way out of town, up the Columbus pike and east on the Waterloo pike, to Waterloo. Crowds cheered the party at various places along the way.

The start was made shortly before eight and the entire party reached Sweet Briar Ridge at 8.30, with not so much as a single puncture to delay the sportsmen. Fishing tackle and bait—real bait—bulging boxes, baskets and bundles were very

much in evidence. Included with the members of the Association, were Gen. John C. Speaks, Chief Game Warden of Ohio; G. G. Bingham, of Columbus, and A. R. Argenbright, of Columbus.

Bait casting and other contests were enjoyed during the forenoon, and at the noon hour a bounteous dinner was enjoyed by everyone, the exercises of the morning having whetted the appetites of the sportsmen until they were "hungry as bears."

The grounds where the dinner was enjoyed—Sweet Briar Ridge, owned by Mr. H. B. Dahl, was crowded with picnickers, and those in charge of arrangements had omitted nothing that would add enjoyment to the occasion. The club house was elaborately decorated for the event. After dinner the entire party enjoyed a few hours fishing, trap shooting, etc.

KELLER NOW LEADS THE QUIET LIFE

The following sketch concerning Lee Keller, son of Perry Keller, formerly well known resident of this city, is from Hubig's Weekly, published at Sandusky, Ohio:

LEE KELLER AND THE CIRCUS.

Twenty-three years ago Lee Keller, clerk of the Sandusky school board, lived in Washington C. H. The C. H. stands for court house. He had mastered the trombone and was one of the expert musicians which Washington C. H. turned adrift in those days. In fact the city still turns them adrift, and when any circus or "operee" company wants a good musician they write Washington C. H. Lee had never been away from home until John Robinson hit the town with his circus, the same one which comes to Sandusky next week. Old John looked at young Lee after hearing him play the trombone and then went to Lee's father and said he wanted Lee on the road for a year. He promised to take good care of him and incidentally show him the world. Lee blew his horn in the Queen of Sheba's tent, a musical extravaganza of merit for a traveling circus. He blew it in every town from Podunk California

to Sleepy Hollow, N. Y. Then he came to Sandusky and has since ceased to blow his horn. They were the happy days. Only those who have had the wanderlust, know what it is to have lived through the thrill and excitement of "what town do you go from here" life, the ever-ready lunch rooms with an egg sandwich, a cup of coffee and a hunk of apple pie.

But Lee had another trade beside blowing an old trombone. His side line was taking care of people who were dead. That's why he came here. He picked Sandusky over all towns he ever visited as the most beautiful residence city. Michael McAdams, the veteran minstrel man who goes on the road year after year, always returns here because he, too, believes Sandusky is one of the finest cities in the U. S. A. And so we might go on and name others. The average Sandusky cannot understand why learned men, top notchers in their profession, should make Sandusky their home. Briefly its the town and the environment. Lee Keller has proven himself a conscientious, public-spirited citizen, who has worked hard for the city's good.

WHEAT HARVEST IS NEAR AT HAND

Once more wheat harvest is near at hand, and the farmers are preparing for the big event by purchasing new binders, twine and other material and by July 1st the harvest will be under way.

The grain, with proper weather, will ripen quickly, and most of the farmers are expecting a big yield.

However, a local grain dealer states that reports indicate that the Hessian fly and joint worm have caused heavy damage to the Fayette crop, and he estimates that in many instances a half crop will be the result.

TOE IS BROKEN WHEN SWING FALLS

Kenneth Kerr sustained a severe injury of the right foot Tuesday evening, and as the result is walking about with the indispensable aid of a cane.

Kenneth was one of a porch party of young people and was standing behind a bench swing containing two or three persons. One of the chains supporting the swing broke and the unloosed end of the bench came down on his foot. One toe was fractured and another badly bruised.

BASEBALL

Another View of It.

The Wilmington Journal of this week, commenting upon the game here last Sunday between the Wilmington Clintons and the local Athletics, concedes that "Washington did nobly," but was "outclassed;" also that "the odds are that the stalwart Clintons will take the series in 'straight-away fashion.'"

The Wilmington scribe has the "home town" spirit all right. It may be interesting to observe what he will have to say concerning the drubbing the Clintons are due to get on their own grounds July 11.

TEUTONIC DRIVE TOWARD WARSAW TO BE LAUNCHED

GENERAL RETREAT OF SLAVS ALONG GREAT FRONT IS LIKENED TO THAT OF FRENCH WITHDRAWAL TO MARNE

All Eyes Center on Next Move in East Where Teutons Continue to Advance in Face of Deadly Resistance of Russ—Petrograd Makes Difference Between Retreat and Defeat and Say Loss of Lemberg of Little Strategic Importance—Italians Say Austrians Are On Offensive, But Meet Defeat—No Peace Offers Made to Germany—Turks Successful in Caucasus.

By Associated Press.
London, June 24.—A dispatch from Amsterdam to the Central News says that the Germans, following their victory in Galicia, have already made preparations for another attempt to capture Warsaw.

Petrograd, June 24.—The Russian retreat through Galicia, entailing the evacuation of Lemberg, is likened by Russian critics to General Joffre's retreat to the Marne, in the early part of the war.

They explain that such a successful retreat, keeping the army intact, is no wise equivalent to a defeat. The evacuation of Lemberg, it is felt here, can have no strategical importance, other than the loss of a large, populated center.

Berlin, June 24.—A further victory for the Austro-German forces in Galicia was announced today at army headquarters. The army of General von Linsingen, which has been meeting with stubborn opposition from the Russians along the Dniester river front has succeeded in crossing the river.

London, June 24.—The fall of Lemberg is being followed, according to Berlin advices, by a general Russian retreat over a wide front.

In the Lemberg district the victorious Austro-German armies are said to be driving the Russians eastward, while to the west the armies of Emperor Nicholas are falling back from the country northwest of Przemyśl, near the Russian border, and as far north as the district of Kielce, in Russian Poland, about 100 miles from Warsaw.

The Berlin dispatch says the Russians near Lemberg kept up their resistance to the last, their lines being out in the north and finally in the center, before the city.

Hostilities are continuing with varying degrees of intensity along the whole Italian front, but apparently the invasion of Austria has been checked by the reinforcements brought in from the Galician front. The Turkish forces in the Caucasus which have recently undertaken a new offensive movement, are said to have captured positions along the front of nearly 2 miles near Olti, the Russians fleeing eastward.

The Berlin newspaper Tages Zeitung, which was suspended on Monday for its unfriendly utterances concerning the United States, was permitted today to resume publication.

Seven British fishing vessels have been sunk by a German submarine off the coast of Scotland. Most of the crews were saved.

A Paris announcement today gives

details of land operations on the north side of the Dardanelles, between June 1 and 8, and recites that as a result of attacks by the French and British a gain of from 150 to 400 yards along a front of over a mile was made. British troops took over 500 prisoners.

Verona, Italy, June 24.—According to reliable information that has reached Verona, the Austrians have received such reinforcements as to enable them to take the offensive throughout the front, but are constantly being repulsed everywhere with heavy losses.

Berlin, June 24.—The Overseas News Agency today quotes an official German newspaper as saying that, notwithstanding reports to the contrary, during the whole war no hostile government has approached Germany, directly or indirectly, with peace offers.

The same agency says in political circles the fall of Lemberg is considered a crushing defeat, morally and politically, for pan-Slavism.

Whether it will result in the breaking down of Russia's military operations is considered questionable.

WILL SHUN BELLIGERENTS

By Associated Press.
Washington, June 24.—Because of reports that United States mails destined for Norway, Sweden, Denmark and the Netherlands, in transit through belligerent countries have been opened and censored, Postmaster General Burleson today directed that until further orders all mails for those countries be sent on vessels sailing direct, and not touching at any port of the belligerents.

PRESIDENT AND HOUSE DISCUSS WAR

By Associated Press.
New York, June 24.—President Wilson, enroute from Washington to his summer home at Cornish, N. H., stopped off today at Roslyn, L. I., to spend the day with his intimate friend Colonel E. M. House and to receive at first hand the latter's impression of the war situation in Europe and the developments thereto

affecting the United States.
At the country estate of Colonel House they were to spend the day free from interruption by visitors in discussing Colonel House's trip and his conferences abroad with high officials of the warring powers.

Colonel House's information was gained in London, where he visited Sir Edward Grey, the British minister of foreign affairs, in Paris, where he delivered a letter from President Wilson to President Poincaré of France, and in Berlin, where he called on Von Bethmann Hollweg, the German imperial chancellor.

The entire forenoon was spent by the president and Colonel House in consultation. After luncheon the conference was continued.

THAW IS TO TAKE STAND AGAINST SELF

By Associated Press.
New York, June 24.—Harry K. Thaw will be called by counsel for the state as a witness against himself in the hearing now in progress here to determine whether he is sane, according to an announcement today by state's attorneys.

The state's purpose, it is understood, is to avoid the restrictions

which would limit his cross examination, and to lay his story of the killing of Stanford White before the jury before it retires to consider a verdict.

In explanation of his plan to call Thaw as a state witness a deputy attorney said:

"I will thus be able to ask Thaw about anything that has happened since the day he was born."

Thaw said, before the taking of testimony began, that he had no fear of District Attorney Cook's examination.

"I do not care what he asks me," he said. "He can go as far as he likes."

Several witnesses testified they thought Thaw, now sane.

And as a result of a battle of words with an officer the young girl was arrested.

ANOTHER ATTACK BY TAGES ZEITUNG

Berlin Newspaper, Suppressed for Hostility Toward U. S., Reappears With Another Attack Calculated to Poison Minds of Readers—Makes Some Tall Claims About President.

By Associated Press.
Berlin, June 24.—The first issue of the Tages-Zeitung to appear since its suspension, contains another article by Count von Reventlow, which makes a covert attack upon President Wilson in connection with reports that a peace conference is to be held in Switzerland, supposedly at the instigation of the president.

After mentioning these reports, the count says: "Meanwhile, President Wilson has closed the Panama Canal to shipping trade, in order that transportation

DERNBERG IS LOCATED

By Associated Press.
New York, June 24.—In the absence of dispatches from London concerning the disposition of the Norwegian-American liner Bergensfjord, detained by the British authorities at Kirkwall, there was much speculation here today as to what had happened to Dr. Bernard Dernberg,

of ammunition and other war materials of eastern harbors of the United States to Vladivostok, for the increasing of the Russian fighting strength, shall not suffer interruption, and over the Atlantic, at the same time, are voyaging from the United States floating arsenals and ammunition depots, in order that the cries for help from Great Britain and France shall be silenced as soon as possible.

"And again, at the same time, President Wilson demands that a sure and unimpeded journey be guaranteed these floating arsenals."

former colonial secretary of the German Empire, who sailed from this city aboard the steamer June 12, under guarantees of safe conduct given by representatives in America of the allied powers.

All that was definitely known here was that the vessel's voyage to Bergen, Norway, had been interrupted, and that she had been taken into Kirkwall and detained there.

This intelligence reached New York after a two days' delay by the British censors.

Later — The Norwegian steamer Bergensfjord together with Dr. Dernberg, has been released by the British authorities and will sail from Kirkwall tonight.

BATTLE FOR MEXICO CITY NOW EXPECTED

By Associated Press.
El Paso, June 24.—A Carranza army under General Pablo Gonzales has reached the suburbs of Mexico City, according to a telegram received from a Carranza agency here today from Vera Cruz dated yesterday.

Galveston, Texas, June 24.—Zapata forces in Mexico City have entrenched themselves, according to information reaching the Constitutionalist consulate here today from General Gonzales.

For this reason, the general says, and because he wishes to spare the city the horror of an attack, he has delayed his movement of occupation. He expects the surrender of the capital by the Zapata forces, or their evacuation of it.

Reports from General Obregon indicate that he expects to occupy Aguascalientes before the end of the week.

According to a statement last night by the Carranza agency at El Paso, a message from Vera Cruz had stated that General Obregon had already occupied Aguascalientes. The announcement has met with denials from Villa representatives.

Carranza officials at El Paso state the occupation was accomplished without heavy fighting and that Zacatecas, 75 miles north, will be the next point of attack.

El Paso, Texas, June 24.—Carranza adherents declare the evacuation of Aguascalientes a serious blow to the Villa cause.

They maintain Villa's army is poorly fed and equipped, and point out that the progress of the Carranza army under Obregon from Celaya northward, approximately 130 miles, in the last few months, is evidence of the waning of General Villa's effectiveness.

ACCUSED TELLS STORY

Lima, June 24.—Dorance S. Riddle, on the stand here today in his defense in the first degree murder trial for the killing of his sweetheart told the story of the crime in the courtroom.

He said the girl had struck him before he grabbed her and choked her. He declared he did not intend to kill her.

STILL ANOTHER SMALL QUAKE

El Centro, Cal., June 24.—Another slight earthquake shock was felt here at 8:30 a. m. today. It shook bricks from several buildings damaged by shocks Tuesday night. The losses caused by the quake Tuesday night will not exceed \$500,000, it is believed.

DOUBLE BARRELED INVESTIGATION ON

Columbus, June 24.—Two separate investigations will be conducted on charges filed with Governor Willis against Supt. R. U. Hastings, of the Lancaster Boys' Industrial School. Governor Willis announced today.

he would appoint three citizens to make an inquiry. The Board of Administration, dissatisfied with this procedure, announced it would hold a series of public meetings to inquire into Superintendent Hastings' record. It held that it alone has authority to make an investigation into any state institution.

Superintendent Hastings reported to the board early today that he had dismissed, summarily, six employees of the Lancaster school, who were instrumental in preparing charges against him filed with the governor.

It is reported in political circles that similar charges may be brought against a number of supervisors of other state institutions.

HARDING'S VIEWS ON SUFFRAGE

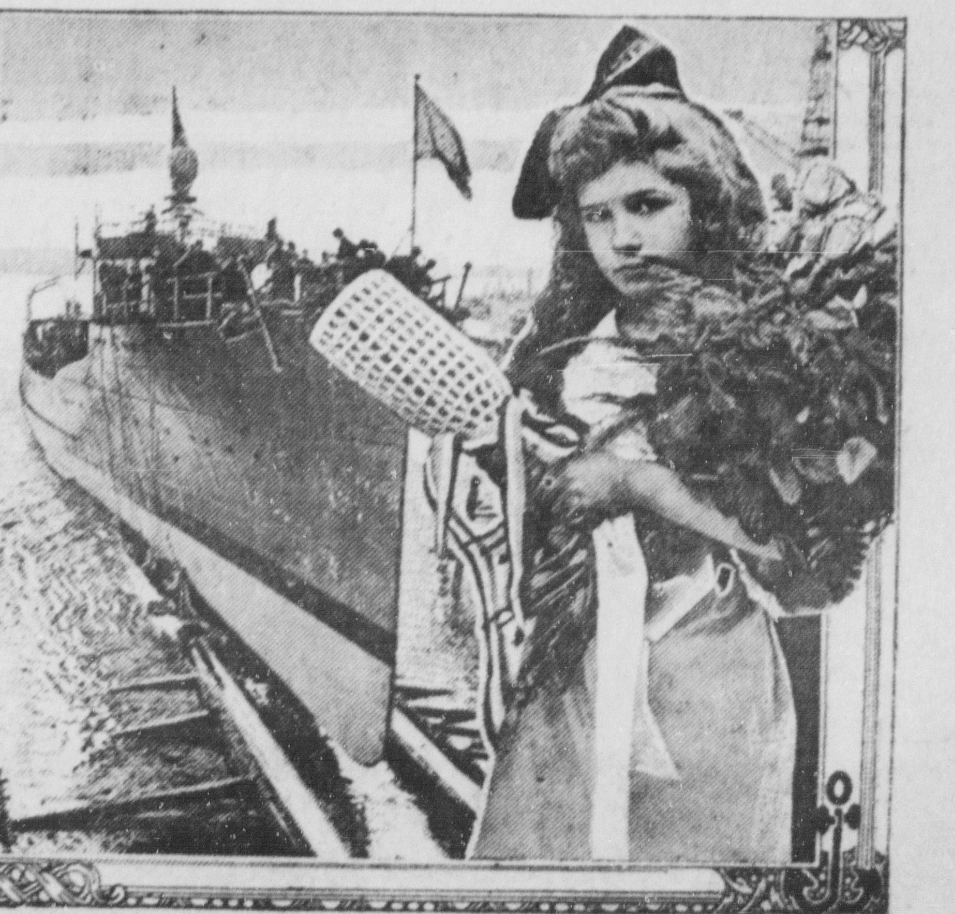

Columbus, June 24.—United States Senator Harding told women suffragists, in an interview today, that he believed suffrage "never will become a fixed thing until some party assumes sponsorship for it."

He made no definite promise concerning his attitude toward the question.

POPE'S INTERVIEW

Rome, June 24.—The interview granted La Liberté of Paris by Pope Benedict is considered here to be of such gravity that the newspapers refuse to believe it authentic until all doubt on this score was removed by the Vatican's statement, published in a Rome newspaper, a Vatican organ.

AMERICAN COLONY IS IN DANGER

Washington, June 24.—Conditions in Mexico have reached such a pass that officials here believe the United States can not much longer stand by without taking action. American lives and property are in danger in the Yaqui valley and there is serious disorder in other sections of the republic.

According to advices received here from various quarters, Mexico is in a more turbulent state today than it has been at any time since the revolution began. Doubt is expressed that the Villista forces will be able to suppress the Yaqui Indians in Sonora, and there is fear that this government will be compelled within a few days to send an expeditionary force inland to protect the American colony, located about twenty miles from Guaymas. There are other spots in Mexico where similar drastic action by the United States seems to be imperative.

With thousands officially reported to be starving south of the Rio Grande and other thousands suffering from pestilence, the American Red Cross announced that its funds available for Mexican relief work are exhausted. The Red Cross has sent out urgent appeals for contributions of food and money to meet this alarming situation. Advices received here report the killing of foreigners near Vera Cruz. Nineteen persons were killed when a train on the Vera Cruz and Isthmus railroad south of Vera Cruz was fired on, presumably by Zapatistas. Reports of the attack, which occurred last Monday, were received at the state department in dispatches from Consul Canada, who also reported that the railway between Vera Cruz and Mexico City had been cut.

Further fighting between the Yaqui Indians and Villistas is reported in the dispatch received from Admiral Howard. This dispatch shows that the Indians are still on the warpath, despite the efforts of Governor Maytorena to suppress them.

Carranza Still Obdurate.
General Carranza has informed the United States government that under no circumstances will he treat with General Villa, that he will not compromise with his opponents, and that he will continue his plan to crush his adversaries by military campaign. Carranza said that he would soon dominate the situation and would grant amnesty to all who were not guilty of crimes. General Villa and his associates, however, must either leave the country or be tried by a military court.

Dr. Hunt's New Penetration Method
Roots 'em Out in Two Days.
PRICE ONLY 10c.

Your corns are as good as gone the moment you buy a ten cent box of Dr. Hunt's New Corn Cure. This is the new penetration method that everybody's talking about. Dr. Hunt spent a life-time of research in developing this new principle. Millions of packages already sold.

The method is simplicity itself. Dr. Hunt's New Corn Cure comes in easy-to-apply plaster form. Six plasters in a box. Trim plaster size of corn and apply.

You get ease the moment you use it. Instantly the penetration process begins. You can wear your regular shoes while a cure is being effected. You can dance. Nothing to "bulk" up your shoe. No caustic ingredients. No paring necessary. Your feet are really comfortable. And in two days that corn lifts out bodily.

Sold by druggists and shoe dealers everywhere for 10 cents a box. Money back if not delighted. Take no other if you want to be sure of a quick, easy, permanent cure. If unable to secure a box, send ten cents in stamps to American Chemical Company, Sidney, Ohio.

BRITISH UNIONS MUST RECRUIT MEN

London, June 24.—David Lloyd George, minister of munitions, has given British labor seven days in which to make good the promise of its leaders that men will rally to the factories in sufficient numbers to produce a maximum supply of munitions of war. The seven days begin today. This was the most striking statement in the new minister's speech in the house of commons in the course of outlining the munitions measure, which is designed to control not only the output but the men responsible for the output. The munitions bill makes strikes and lockouts illegal.

OHIO BANKERS ELECT OFFICERS

Cedar Point, O., June 24.—The Ohio Bankers' association at its state convention unanimously adopted a resolution recommending legislation placing building and loan associations in the state banking department.

A. B. Leach, a New York banker, reviewed the effect of the European war on financial conditions here and abroad and declared that the United States should be the world's banker after the struggle ends. John Barrett, director of the Pan-American union, told the bankers the United States would be first commercially in South America if the federal act was amended to permit the organization of a great central west bank to do business exclusively in South America.

Officers elected are: President, O. N. Sams, Hillsboro; vice president, A. E. Adams, Youngstown; secretary, S. D. Rankin, Columbus; treasurer, W. S. Lamb, Toledo.

ASLEEP ONE YEAR; DIES IN COLUMBUS

Columbus, June 24.—One year ago Henry C. Mankey, seventy-five, went to his room at the usual time to retire. Since then he never left his bed. During those twelve months, with the exception of a few minutes at different intervals, Mr. Mankey had been asleep. All this while his wife fed him the same as she would an infant. Mankey, who died last night, was a civil war veteran.

GERMAN SPY PUT TO DEATH

London, June 24.—F. Robert Muller, who on June 4 was found guilty at the Old Bailey police court of being a German spy, was executed in the Tower of London by shooting. Another alleged German spy, Robert Rees, who is said by the police to have confessed that he was sent to England by the German admiralty to obtain information on naval matters, is to be court-martialed.

"Want Ads" Cost Little. Pay Big.

GERMANS SAY RUSS CRUSHED

London, June 24.—Lemberg, the capital of Galicia, taken by the Russians from the Austrians on Sept. 3, has been recaptured by the Austro-German forces. The first divisions of the Teutons entered the city without serious opposition and under the eyes of Emperor William.

The Russian armies have retired farther to the east. While the rear guard of 40,000 men, which has desperately striven to stem the overwhelming advance since Monday, has been cut up or taken prisoners, the main body of troops, with the heaviest field guns has been able to withdraw on the railroad to Brody, the border town, or along the line of that railway. It is doubtful whether Russia will endeavor to make another stand along the Lemberg-Brody route within Austrian territory.

During the fighting for Lemberg, from June 2, the Austrians and Germans captured 60,000 Russian soldiers and have taken many Russian guns.

Whether the fall of Lemberg means that the Russian army operating south of it in southern Galicia is effectively cut off from the army to the north, stretching across Poland from the Baltic, can not yet be said. Vienna and Berlin say this is the case and that the Russian arms have received a blow from which they can not recover.

If the stroke proves as crushing as the Teutons predict, its effect, military observers here say, soon should be felt in the transfer of vast German forces to the west, where for days they have been hard pressed by the French.

Berlin and Vienna are reported to be filled with joy over the victory of their forces. Archduke Frederick of Austria, commander-in-chief of the Austrian forces, and General August von Mackensen of the German army, both have been made field marshals of the Prussian army in recognition of their services in the Galician campaign.

The Italians have taken all of the defenses surrounding Malborghetto, and are now storming the town itself according to a dispatch from Laibach, Austria, arriving here by way of Geneva. Malborghetto has been the first important objective of the Italian army which has been slowly advancing along the railroad to Tarvis practically since the war began.

Desperate fighting continues in Belgium and northern France. In the Vosges the Germans claim to have taken Hill 831, at Bandsept, which has been hotly contested for months. This hill dominates all the surrounding country.

OHIO SPANISH VETERANS ELECT

Mansfield, O., June 24.—Alexander Frank of Cincinnati was elected commander of the United Spanish War Veterans at the annual convention of the twelfth annual encampment here. The council of administration will decide upon the place for next year's convention. Xenia and Capt. Perry are the leading candidates for the honor. The United Spanish War Veterans auxiliary also closed its session by electing Mrs. Belle Colwell, Akron, department commander. Business sessions of the Department of Ohio, G. A. R., and the five other allied patriotic organizations, have been opened.

GOV. WILLIS STARTS PROBE

Columbus, June 24.—Governor Willis admits that charges have been filed against the management of the Boys' Industrial home near Lancaster. "They have been coming in for some time," he said. "Their exact nature I can not discuss, because I don't know enough about them." The governor indicated he would begin at once an inquiry into the Lancaster trouble. Captain R. U. Hastings, the superintendent, would make no statement regarding the charges. The governor is reported to have decided on an immediate investigation to learn whether there was anything besides political motive behind the charges.

W. C. T. U.
The local W. C. T. U. will hold its regular meeting Friday at 2:30 o'clock at the home of Mrs. Harsha, E. Market street. An evangelistic and mothers' meeting. Mrs. Alice Adams, Supt., in charge of the program.

Logan, O., June 24.—Fearing a spread of rabies, authorities killed several head of cattle, a number of hogs and thirty dogs, following an attack made by a dog said to have had rabies.

Automobiles in Collision.

Cleveland, June 24.—Eight persons six of them women, were injured, one, Miss Regina Rieger, seriously, when two automobiles collided in the eastern end of the city.

Veterinarians to Meet.

Toledo, June 24.—The Northwest Ohio Veterinary association and the Michigan State Veterinary association will hold a joint meeting here June 30 to July 1.

Luther League Meets.

Mansfield, O., June 24.—The twentieth annual convention of the Luther League of Ohio was opened here with more than 400 delegates in attendance.

CARNEGIE AGENTS REFUSE TO ASSIST

Washington, June 24.—It became known here that representatives of Andrew Carnegie have refused to extend any support to the labor peace movement that has been set in motion by Representative Buchanan of Illinois and former Representative Fowler of that state. Inquiry developed that the labor leaders concerned approached agents of some of the Carnegie peace societies and that funds were refused. As a result those identified with the labor peace movement are very indignant, declaring that if the Carnegie societies are as deeply interested in the question of disarmament as has been represented, they should support any agency formed to attain this end.

UNCLE SAM'S STAND IN THE FRYE MATTER

Washington, June 24.—The reply of the United States to the German note in the case of the American schooner William P. Frye was forwarded to Ambassador Gerard for presentation to the Berlin foreign office. This government protests against the principle enunciated by Germany that it has a right to refer such cases to prize courts irrespective of treaty rights and international obligations.

The Frye was sunk by the Prinz Eitel Friedrich, the German raider, in January last. The United States made a claim for damages and Germany admitted her responsibility and agreed to pay damages. Later, and before Germany formally communicated with America on the matter, Germany sent the case to a prize court. In the note just forwarded the United States makes a protest against this procedure, being anxious to be placed on record as opposed to a reference to a prize court. The United States asked that this case be settled through diplomatic channels, but Germany contended that she was obliged to follow the prize court course. The latter method of settling the case will take much longer.

FRENCH TROOPS ENGAGE TURKS

Paris, June 24.—The war office announced gains made by French troops at the Dardanelles. Two attacks were delivered by the left wing, the Turks being driven from two trenches. These are being held despite violent counter attacks. On the French right, where the terrain is more difficult, the enemy succeeded in retaking entrenchments, but these were recaptured later by a bayonet attack. Counter attacks were repelled with heavy loss to the enemy. The battleship St. Louis effectively bombarded the batteries on the Asiatic side of the strait. On the French left the British army gave efficacious assistance.

SPANISH CABINET WILL NOT RESIGN

Madrid, June 24.—King Alfonso, who is at La Granja, has telegraphed to Premier Dato expressing regret that the government's loan has failed. He adds that the government must not, therefore, be deterred from continuing its patriotic work. It is believed that the cabinet will be continued.

THAW PROVES GOOD WITNESS

New York, June 24.—Harry Thaw was the first witness in the trial to have his sanity tested by a jury. He appeared calm and collected. He told of his escape from Matteawan Aug. 17, 1913, and his subsequent movements in Canada and New Hampshire. His story was the same substantially as he related in the conspiracy trial last March. He identified his mother, sister and brother, who were sitting in the courtroom, at the request of his attorney. Thaw was asked to tell of the examination of his sanity made in Manchester by the federal commission. He named the member of the

commission and told how it came to be appointed.

Instead of beginning the cross-examination at once, opposing counsel announced that they would not question him until later on in the trial.

ANOTHER BRITISH CRUISER TORPEDOED

London, June 24.—The British cruiser Roxburgh was torpedoed by a German submarine in the North sea last Sunday, according to an official statement issued by the admiralty. The cruiser was not damaged so seriously but that she could make port under her own steam. There were no casualties. The Roxburgh is of 10,850 tons displacement.

Dust and the Lungs.

Where there is less dust there is less tuberculosis. This disease is responsible for almost exactly one-quarter of all the deaths among wage earners in this country between the ages of fifteen and thirty-five. It is also responsible for almost exactly one out of every three deaths that come between the ages of twenty and forty years to both male and female wage earners. The death rate from tuberculosis among agriculturists may be put at 106 per hundred thousand. In comparison with this the death rate from tuberculosis among those engaged in cotton manufacture is 202; brass work, 279; copper work, 294; glass making, 295; earthenware, 333; cutlery, 382; file making, 402. Other statistics might be given showing the same thing—namely, that tuberculosis is intimately associated with certain occupations, especially those giving rise to dust, metallic, mineral or organic.

The Indiana Indictments

More than five score of indictments charging the perpetration of fraud in elections, have been returned against Indiana politicians and officials of more or less prominence. Some of the men indicted have enjoyed prominence and success in politics which covers a much wider range of territory than the state of Indiana. Among those men is "Tom" Taggart, at present the Democratic national committeeman from Indiana, and Mayor Joseph E. Bell, of Indianapolis, also a Democrat.

Some Republicans and Progressives are also caught in the dragnet which has been pulled through the bayou of Indiana politics indicating that, while the majority of accused men claim allegiance to the Democratic party, that the "organization" knew no party.

The more prominent of the indicted men face charges of bribery and blackmail.

It is proper, of course, that the public should not conclude that the accused men are guilty in advance of their trial—that's the theory of the law. It will be difficult, however, for the majority of people to retain for the accused men a presumption of innocence until after the final trial, especially when public rumor has directed suspicion against them for a long time.

Political leaders who entertain any lingering doubt that the old regime of fraud and corruption in politics is passing rapidly away find little to strengthen that doubt in the upheavals which have occurred in Indiana within the last year.

It is growing more difficult each year for the men who have prospered by crooked political acts to escape punishment for their misdeeds.

The people are awake to the fact that vice of the very worst type has been rampant and they are determined to stamp it out.

Indiana, judging from the upheavals at Terre Haute and Indianapolis has been a little slow to realize that the crooked men and the crooked methods must go, but the crusade is on now in earnest.

The Joliet Tragedy

The brutal murder of Mrs. Edward M. Allen, wife of Warden Allen of Joliet, Illinois, penitentiary, has furnished a strong argument for those who oppose the honor system among convicts.

The crime is one of the most brutal and shocking ever perpetrated and must have been the act of one of the "trusty" or honor-prisoners.

The murdered woman was beautiful and attractive and loved by all who knew her. Among the unfortunate convicts she was known as the angel of the big prison because of her interest in their behalf and because it was largely through her efforts that the honor system was so generally adopted at Joliet.

Circumstances indicate that the crime was committed by a trusty who was the personal servant of the warden and his family, but there is no positive evidence of his guilt and the most rigid grilling, by officials, has failed, so far, to bring a confession.

Warden Allen, although prostrated with grief still has faith in the honor system and believes it the only humane method of dealing with convicts.

Whether the honor system, however, has been put into practice too rapidly in our big prisons, whether the privileges and the opportunities which the system affords are given to convicts before they are mentally and morally prepared to receive them, is a serious question. Certainly one demon confined at Joliet was given privileges under the honor system before he knew how to use them and the mistake has exacted an awful price.

The tragedy at Joliet teaches that the bestowal of the privileges of the honor system should be made with due regard to every circumstance in each case and pertaining only to the individual prisoner.

There can be no rule or classification of prisoners, according to time of service, or behavior in prison which would render a bestowal of the privileges of the honor system upon a body or class of prisoners, anything but dangerous.

Poetry For Today

THE LAND OF "PRETTY SOON."

I know of a land where the streets are paved
With the things we meant to achieve.
It is walled with the money we meant to have saved
And the pleasures for which we grieve.

The kind words unspoken, the promises broken,
And many a coveted boon
Are stowed away there in that land somewhere—
The land of "Pretty Soon."

There are uncut jewels, of possible fame,
Lying about in the dust,
And many a noble and lofty aim
Covered with mold and rust.

And, oh, this place, while it seems so near,
Is further away than the moon!
Though our purpose is fair, yet we never get there—
The land of "Pretty Soon."

It is further at noon than it is at dawn,
Further at night than at noon;
Oh! let us beware of that land down there—
The land of "Pretty Soon."
—The King's Own.

Visitors from a distance to the Panama-Pacific exposition at San Francisco note that one of the old first class residence districts has not been reconstructed. The ruins of the earthquake and fire remain as a memorial of the primitive local nobility and local nobleness of San Francisco. The reason offered to the visitor is that the former dwellers in the mansions which were destroyed have selected other sites for homes and that, as a rule, in the country. This choice was not so much on account of the danger in the city as a desire to live in the country. The finest up to date residences in the cities are flats. They are endurable to people compelled to study convenience and economy. Those who can afford to indulge in comfort seek for it in the country. When they want to be in the city for a few months the flat has some advantages over the big hotel.

The owners of the Wilhelmina cargo received more than double value from England for holding her up, so it must be profitable sometimes to have trouble in the war zone.

YOU CAN'T

You can't accumulate money without self-denial. Are you looking forward to the day when you will have all you now want and deluding yourself with the idea that you will THEN begin to accumulate money? That day will never dawn for you. Each day will bring a new want and if you continue to indulge in them your life will end in want. Indulgence today means for you future want, while self-denial today means future indulgence. Start a self-denial account today. Watch over it now and in the years to come it will watch over you.

Your Flag and Mine

Your flag and mine! How proudly there
It flutters in the morning breeze.
And who, beholding it, shall dare
To turn in doubt or let despair
Assail his nobler ecstasies?
Your flag and mine and ours to guard
So that in future centuries,
Still proudly striped and bravely starred,
Unmirrored by shame, by wrong unmarred,
Its might shall thrill, its beauty please.

Your flag and mine! And shall we let
Its glory die or splendor fade?
Who doubts that freedom flaunts it yet
Or dares to heedlessly forget,
By selfishness or passion swayed?

"YOUR FLAG AND MINE AND UNCLE SAM'S."

Your flag and mine and ours to hold
In tender reverence, unafraid,
Our faith adorning every fold,
In virtue strong, in honor bold,
Its grace to all the world displayed.

Your flag and mine! How splendidly
It flutters out against the sky;
How glorious it is to see;
How fair to you, how dear to me—
Most proud of all the flags that fly!
Your flag and mine and ours to keep
Unsoiled, unshamed and waving high—
Our trust unfeigned, our courage deep—
For those whom, after we shall sleep,
It shall inspire and glorify.

\$25,000 DAMAGES SOUGHT IN SUIT FILED THIS AFTERNOON

William Davidson, Alleging That J. P. Snyder and Anna Snyder Alienated Affections of Wife and Caused Her to Sue for Divorce, Files Action in Common Pleas Court for Damages

Alleging that the defendants, J. P. Snyder and wife, Anna Snyder, alienated the affections of the plaintiff's wife, deprived plaintiff of the society of his wife and child and caused plaintiff's wife to bring suit for divorce, William E. Davidson, brother-in-law of the defendants, early Thursday afternoon filed action in the Common Pleas court in which he asks \$25,000 damages. Logan and Post & Reid represent the plaintiff in the action.

The plaintiff in his petition states that his wife, Jennie Davidson, and Anna Snyder, wife of first named defendant, are sisters, and that from 1901 to 1914 plaintiff, wife and child resided on a 110 acre farm near Good Hope; that 48 acres of the farm belonged to plaintiff's wife and that residue of farm was held under lease by the plaintiff, who states that he improved the 48 acres and enhanced its value.

Continuing the plaintiff says that prior to October, 1914, defendants

wrongfully designed to injure plaintiff and deprive him of the affection and society of his wife and strip plaintiff of his property, resources and business; that on or about October 1, 1914 defendants induced plaintiff's wife to acquiesce in the purchase of certain property in Good Hope, cause sale of live stock and farm chattels, and from proceeds pay for the property; that defendants, with plaintiff's consent and against his known desire, moved the household effects to occupy the premises, and allowing to plaintiff's effects what room was not occupied by the defendants.

The defendants went to the south for the winter, according to the plaintiff, and returned in May, 1915. Plaintiff claims that defendants spirited away his young child and provoked a breach of peace between plaintiff and defendant, caused plaintiff's wife to begin suit for divorce in the Probate Court on June 16, 1915, in which plaintiff says he is wrongfully charged with cruelty, habitual drunkenness, and represented as threatening further cruelty; that an order obtained from the court prevents him from entering his own residence.

In conclusion the plaintiff alleges that the defendants have enticed his wife and child to separate from him, causing him great distress, much expense, etc., and asks judgment in the sum of \$25,000.

FAYETTE MAN WILL SIT IN BIG CASE

Mr. T. T. Beatty, of Selden, has been selected as one of seven farmers in the jury of twelve men who will decide whether the old Capital City Dairy Company is guilty of conspiring to defraud the government out of \$2,000,000 oleomargarine taxes.

Another interesting fact in connection with the case which Mr. Beatty will help decide is that part of the most damaging evidence obtained was unearthed by J. O. Carson, Government sleuth, who headed the delegation of Burns detectives which operated in this city a few years ago, and for whose arrest a warrant was issued in Justice T. N. Craig's court.

Carson, as an employee of the plant, obtained evidence which will be used in the case.

RUNAWAY GIRL DID NOT GET MARRIED

Jacob Kane, of Logtown, father of Lottie Kane, 17, who left her home secretly a few days ago and went to Cincinnati, arrived from the Queen City Wednesday night, with the information that his daughter was living with her married sister there and did not get married as the police believed. She will remain there.

Since the matter has been cleared up, the running away of the girl does not seem of any great importance. When she disappeared, however her parents were gravely alarmed, and the police as well. The police of Cincinnati and other cities were notified and from the former came a report the next day to the local police that the young woman had been located, though not held, in that city. Her father went down immediately.

Bert Ubanks Is Arrested in Greenfield When His Ford Auto Is Found to Bear Evidence of Carrying Stolen Wool—Authorities Believe Arrest Is Important One.

A Ford with whiskers on.

This led to the arrest in Greenfield Wednesday evening, of Bert Ubanks, charged with stealing wool from farmers around Greenfield, southern Fayette, Sabina, Samantha, and other points within a radius of a score of miles from Greenfield.

For several weeks farmers in the above mentioned territory have been missing wool. Sometimes just a few fleeces would disappear, while in some instances upward of 50 fleeces have disappeared in one night. Indications were that the wool, in each case, had been carried away by automobile and this led to a careful search and lookout for the man.

A few nights ago I. S. Keaton, residing a short distance from Lyndon, missed 39 fleeces valued at upward of \$100. This was too much! He recalled that on the evening pre-

shown at the Airdome this evening, will be given at the Palace instead, on account of the cool weather.

The proceeds of tonight's performance, together with those of this afternoon's matinee at the Palace, will be turned over to the Class in the Corner, a Sunday school organization of the Presbyterian church.

The bill originally announced for the Palace tonight will be shown at the Airdome.

In Social Circles

A reception of exceptional beauty and brilliancy was tendered Rev. A. W. West and his bride, by the members of the First Baptist church Wednesday evening, and largely attended by both parishioners and friends from other churches.

Everything contributed to the pleasure of the occasion, music, flowers, attractive surroundings and a hospitality on the part of the church women that gave to the reception all the charm of the private affair.

Fresh from the hands of the decorators and a perfect wealth of summer bloom permeating the air with fragrance, the handsome church, viewed by many for the first time since its remodeling, was the admiration of the guests. The color scheme of its artistic decorations, sombre creams in the ceiling merging into cathedral grays in the side walls, lent itself as a perfect background to crimson ramblers and ascension lilies which, in graceful profusion, embellished the chancel.

The receiving line formed just in front of the chancel, with Misses Ida Hays, Clara Conn and Mr. Frank Miller introducing Rev. and Mrs. West. Everyone was delighted with Mrs. West, whose charming personality will be a most welcome addition to both church and social circles.

Throughout the evening Mr. James Kneisley and Miss Mable Briggs furnished a fine program of violin and piano music, enhancing the pleasure of the hour.

The young ladies of the church served a delectable summer collation in the Sunday school room, beautifully fitted up as a tea room, and elaborately decorated with Dorothy Perkins roses and lilies. A large bowl of the pink and white roses adorned the table and sweet peas were the favors.

Miss Virginia M. Stevens entertained with a luncheon at her home in South Champion Avenue Tuesday for Miss Roberta Stokesbury, of Washington C. H.—Ohio State Journal, Thursday.

The Wednesday Club of Bloomingburg entertained at the home of Miss Ollie Swope yesterday afternoon with a charming, summer party.

The handsome home, with its spacious rooms and always spontaneous hospitality, had been transformed into a bower of flowers, honeysuckle, hydrangeas and June lilies carrying out an effective white and green color scheme.

A hundred guests including a number outside of club circles found the afternoon one of most delightful sociability.

Delicious fruit punch was on tap all the time and late in the afternoon a dainty luncheon with the color scheme introduced, was served. Receiving in pretty summer toilettes were Miss Helen Haines, President, Misses Ollie Swope, Hazel McCoy, and Mrs. Forest Haines.

Guests from out of town were Mrs. Charles Swope, Mrs. Will Swope, Mrs. Harry Squires, Columbus; Mrs. Frank L. Parrett, Mrs. C. J. Thompson, Mrs. D. H. Rowe, of this city.

The beautiful country home of Mr. Andrew Loudner, near Staunton, its immense sweep of rolling green lawn illuminated with hundreds of Japanese lanterns, was the scene of a delightful summer party, with Miss Marie Loudner and brothers John, Leonard and Thomas hospitable entertainers.

A score of young people enjoyed out door games and later music and dancing.

Mrs. Loudner assisted in serving delicious refreshments.

Those present included Misses Marion Mark, Helen Sheridan, Beatrice Overly, Bertha Wood, Florence Cox, Nora Mitchell, Ethel Hidy, May Hidy, Georgiana Snider and Alvin Snider, Rollo Greer, Alfred Judy, Sherman Hidy, Bruce Hidy. Ed Purry of Springfield was an out of town guest.

Complimenting Mrs. Charles Passmore, of St. Louis, Mo., Mrs. Glenn Rodgers gave a charming Bridge Wednesday afternoon.

Pink ramblers bloomed throughout the rooms in luxuriance. Four tables of players enjoyed the game and the delicious refection served at its close.

Mrs. Frank M. Bateman, of Middletown, was also an out of town guest.

Mrs. Earl Barnett gave a pleasurable little luncheon Thursday, entertaining close friends of her guests, Mrs. Willis Stutson, of Indianapolis, Ind., and Mrs. Earl Cockerill, of Dayton.

Mrs. R. O. Young honored the same guests with a pretty luncheon of eight covers Wednesday, the guests confined to intimates.

Mrs. Wm. Vale of Niles, was among the guests.

June, with all its charm and wealth of flowers contributed to a most enjoyable Kensington of the Woman's Guild of the Presbyterian church, Wednesday afternoon at the home of Miss Rose McLean.

Assisting Miss McLean as hostesses in the very cordial hospitalities of the afternoon were Mesdames Robert Howat, Marion Dunlap, H. M. Roberts, Will Klever, Misses McHenry and Emily Tanzey.

A tempting collation was served while the women visited over their needle work.

Mr. Charles Pratt, son of Mr. and Mrs. Joseph Pratt, and a former Washington boy who retains a host of friends in this city, was united in marriage to Miss Bonnie Nichols on the twenty-second of June at Bakersfield, Cal., Mr. Pratt's present home.

Mr. Pratt left this city about five years ago, spending two years with his father in Panama, after which he joined his brother, Perry, in Bakersfield.

Mr. and Mrs. Pratt left immediately after the ceremony on a trip to the Panama-Pacific exposition and will be at home in Bakersfield after July the first.

Mr. Pratt's Washington relatives and friends are learning of the marriage with much interest.

The Sugar Grove W. C. T. U. held an enjoyable session at the home of Mrs. Maude Cockerill Wednesday afternoon. The day's topic for discussion was "Purity" and interesting papers were read by Mesdames Laura Pine, Anna Hardway and Rilla Silcott. A physical culture drill, led by Mrs. Laura Pine, was a feature of the afternoon. Mrs. Theresa Brakefield and Mrs. Blanche Boyer were in charge of the program.

After a short business session a pleasurable social hour followed, Mrs. Silcott, Mrs. Ed Darlington and Mrs. Lada Vincent assisting Mrs. Cockerill in serving refreshments.

The next meeting will be held at the home of Mrs. Anna Hardway.

SCOUT PROVES SOME TRAVELER

Donovan Esthes, Boy Scout of Dayton, who passed through this city Tuesday on his way to Huntington, W. Va., reached Chillicothe at one o'clock Tuesday, after completing 80 miles between 5:30 in the morning of that day, making the trip on a bicycle.

His original plan was to stay in this city until one o'clock. When he reached Chillicothe he rested one hour and started once more. He expected to arrive in Huntington on Thursday.

One instance of preparedness for war may be cited in the work of the Red Cross society in the battle zone of Europe. Of course the society did not maintain and train enough nurses for the heavy demand put upon it. These were already in training in various hospitals of the country. But they were trained, and the society is able to reject all applicants who are not up to the standard in skill and knowledge. In other words, the society was prepared with the machinery of the service and could immediately recruit and set to work a corps of experts.

A False Report

The impression has been conveyed—we know not how, nor do we care—that we are not now using the same serum that has established our reputation as cholera expert.

Report comes to us that some unprincipled competitor has stated that we are not now using the serum originally used.

Beg to inform those who care that I have never changed; I recommend and use the same LIFE IMMUNITY SERUM (guaranteed) as always.

I am prepared, however, to use any commercial serum that the owner desires.

Depending on the serum used, the prices range from 40 cents to 65 cents per head, the latter price being for the serum that is guaranteed to immune for LIFE against hog cholera.

In Angela's Garden

A Fourth of July Incident

By RUBY DOUGLAS

THE facts that Angela's flower garden occupied less than four square feet of space and consisted of nothing more than some wooden boxes fastened to the fire escape at the library window made her none the less enthusiastic about it.

Every morning at 7 she was on the fire escape in her pale blue bonnet attending to her posies, paying especial attention to the washing of the pansies' faces.

On the morning of the Fourth of July Angela opened the window a little earlier than usual. The noises around had awakened her. As she was executing the last movement of

"ARE YOU HURT?" HE ASKED FEARFULLY.

her now gracefully acquired exit from the window a firecracker fell from above and shot off in her garden. Angela started and covered her face.

A young man descended quickly by means of the iron ladder.

"Are you hurt?" he asked fearfully.

Angela uncovered her face and looked up. "No, I think not. I was frightened," she said, looking at the remains of the offending firecracker.

He heaved a sigh of relief.

"It was awfully careless of me," he went on, standing on the bottom rung of the ladder. Angela's garden was hardly large enough for two. "I was just playing 'little boy' again and trying to imagine myself in the country instead of a city apartment. I hope you'll pardon me." There was so much self reproach in his tone that Angela felt that he was truly sorry.

"Of course I'll pardon you," she said, with the merest suggestion of a laugh.

"I won't shoot any more crackers today. A miss is as good as a mile and it might be a mile next time," he said, fingering the leaf of a nasturtium which had found its way up along the railing.

"But, indeed, I won't be out here long," began Angela, wondering why she was not angry because he remained on the ladder. "I—"

"You may remain here all day," he interrupted. "I have done enough mischief for one Fourth."

The girl stooped over and began to twist a willful vine into place. The young man could not help hoping that he might some day influence the rare human flower before him along the path he wished it to travel as easily and gently as she twisted the nasturtium about the iron bar.

He turned and began to climb the ladder.

"I am sorry I stepped out so inopportunistically and marred your Independence day," said Angela, looking up at him. "Please don't stop your fireworks for me."

"Marred my Independence day," he said to himself as he closed the window upstairs. "Well, I don't know about that, but she's marred my peace of mind. Jove, she is pretty!"

So the young man in the apartment above Angela's garden found it necessary to rise earlier than was his habit after that Fourth of July morning for a little fresh air.

And Angela? It may be that her flowers received less attention after the Fourth of July. But perhaps the exploding of that firecracker hindered their progress; smoke stunts the growth, they say.

It was raining one morning when Angela opened the window. Close to the ladder stood a pot of flowers which Angela had not planted, one which she had never seen. It was tall and green, and all over it hung little red hearts. She was glad it was raining and that she could not go out among her flowers, because she wanted time to think—time in which to be angry. But some-

GOOD INDEPENDENCE DAY READING.

HAVE you not learned that not stocks or bonds or stately houses or lands or products of mill or field are our country? It is a spiritual thought that is in our minds. It is the flag and what it stands for; it is its glorious history; it is the fireside and the home; it is the high thoughts that are in the heart, born of the inspiration which comes of the story of the fathers, the martyrs to liberty; it is the graveyard into which our grateful country has gathered the unconscious dust of those who died. Here in these things is that thing we love and call our country rather than anything that can be touched or handled. Let me hold the thought—that we owe a duty to our country in peace as well as in war. Perhaps never in the history of our nation have we been so well equipped for war upon the land as now, and yet we have never seen a time in our history when our people were so smitten with a love of peace.—Benjamin Harrison.

how she found it would take more time than she could spare.

The next morning Angela said to the young man on the ladder:

"You'll observe that my garden has been materially increased since the day before yesterday?" And after a minute, in which neither spoke: "Thank you. They are very, very pretty."

Angela continued to wash the faces of the pansies, though they did not need it after the rain of the day before. And the little velvety leaves felt the nervous twitch in the fingers which dressed them.

"I did not know it would rain on them when I put them there," said the young man, glancing at the hearts.

"But it isn't raining now," she said, still looking at the pansies.

"Angela, will you let the sun shine on my heart always as brightly as it is now shining on the flowers' hearts? Look up, Angela. I love you," he said.

"If—if you won't shoot any more firecrackers at me," she replied, with a happy, tremulous little laugh. "It is you who have taken away my Independence days now."

LANSING IS SEC'Y OF STATE

Washington, June 24.—President Wilson has appointed Robert Lansing to the post of secretary of state to succeed William J. Bryan. Mr. Lansing as counselor of the state department has advised the president in law and precedent in the policy pursued by the United States toward belligerent governments since the outbreak of the European war.

Mr. Lansing is a lifelong Democrat. He has devoted his time to international law and diplomacy. Members of the cabinet who talked with the president on the subject were unanimous in their recommendation that he should be appointed. Colonel E. M. House and other close personal friends of the president advised the selection, and Mr. Bryan himself is said to have hoped for the promotion of Mr. Lansing.

Official announcement of the selection of Mr. Lansing, who has been serving as secretary ad interim since the resignation of Mr. Bryan on June 8, was made in the following statement, issued from the White House: "Before leaving for a brief rest in New Hampshire, the president announced that he had offered the post of secretary of state to Mr. Robert Lansing, the present counselor of the department of state, and that Mr. Lansing had accepted the appointment."

A commission was prepared, which President Wilson signed, giving Mr. Lansing a recess appointment. When congress reconvenes the nomination will go to the senate.

Mr. Lansing takes office thoroughly familiar with the personnel and organization of the department of state, and conversant with the confidential details of all the important negotiations conducted by the United States since the Wilson administration began. Moreover, he has a wide knowledge of policies of previous administrations and especially intimate acquaintance with Mexican affairs and far eastern problems.

Mr. Lansing is fifty-one years old, a native of Watertown, N. Y. After graduation from Amherst college in 1886, Mr. Lansing chose the profession of his father and ancestors—the law—and continued in private practice except when retained by the American government or foreign nations in important cases. He enjoys the distinction of having represented the United States in more international arbitrations than any living American.

The appointment of Mr. Lansing as secretary creates a vacancy in the office of counselor of the state department. It is not expected that any immediate selection will be made, as Chandler Anderson, counselor under the administration of Secretary Knox

WILSON IN NEW YORK

New York, June 24.—President Wilson, who arrived here this morning from Washington, is spending the day in conference with Colonel E. M. House, who has recently returned from Europe, where he made a study of conditions. Tonight the president leaves for Cornish, N. H., his summer home, where he will spend a vacation extending over July 4. With the president on his vacation will be his daughters, Miss Margaret Wilson and Mrs. Francis Bowes Sayre, Mr. Sayre, Miss Helen Woodrow Bones and Dr. Cary Grayson, the White House physician.

ELKUS REPRESENTS THE UNITED STATES

Washington, June 24.—President Wilson designated Abram I. Elkus of New York a special commissioner to represent the United States at an exposition to be held in Panama City, Panama.

PAGE WARNS AMERICANS

Washington, June 24.—A dispatch received at the state department from Ambassador Page at London was made public by Secretary Lansing in the hope, it is understood, that only those Americans who are urged by imperative business will go abroad during the period of the war. Ambassador Page advised the department that Americans are reaching English ports in increasing numbers without passports or other identifying documents, and are in many instances suffering great hardships as a result.

Poor Humanity.
"Success in aeronautics, as in most things," said a prominent aeronaut, "is achieved by patience and faith in oneself. Pessimists, like my friend's new gardener on Long Island, would not accomplish much in work like mine. This man was raking leaves off the lawn one fall day when a neighbor passing by inquired of him: "Where's the gardener who used to work here?" "Dead, sir," was the reply. "Dead," said the astonished neighbor. Then, musing, he added, "Joined the great majority, eh?" "Oh, sir," the gardener interrupted in a shocked voice, "I wouldn't like to say that. He was a good enough man as far as I know."—Lippincott.

Yet Note This

Yet Goodyear Fortified Tires embody many extras. Five are costly features found in no other tire. The rest are found in few.

If we omitted those extras, we could save on this year's probable output \$1,635,000. We could add that to our profits, yet Goodyear tires would look as good as now.

This year's improvements alone will cost us \$500,000 this year. All to give you ex-

These extras belong to you. They mean less rim-cuts, less blowouts, less loose treads. They mean more rubber, more fabric, more mileage, less trouble. Most tire users know that, so Goodyear tires far outsell any other.

Prove it yourself this summer. It will bring you tire contentment.

Any dealer, if you ask him, will supply you Goodyear tires.

Men are now adopting Goodyear tires faster than we can supply them. We have never seen anything like it.

TWELVE INCH SHELLS.

These Big Projectiles Carry a Thirty Pound Explosive Charge.

High power projectiles are constructed with cavities in their centers which contain the explosive charge, the explosive carried varying with the size of the projectile. A twelve inch shell, weighing 870 pounds, carries about thirty pounds of explosive. The cavity of such a projectile is about seven inches in diameter at the base, and gradually tapers in size toward the point. After the charge is placed in the projectile a plug is screwed into the base, thus sealing up the explosive, and a fuse is inserted in the center of the plug extending into the explosive within the cavity.

The fuse, without which the explosive is harmless, depends upon the high rotary motion of the shell to become active. This rotary motion is imparted by the rifling of the gun. In the smooth surface of the tube are cut the rifling grooves of a width of about one-eighth inch.

Round the shell, near its base, is a groove cut for the purpose, is compressed what is known as the rotating band. This band projects above the surface of the shell and corresponds with the rifling grooves, so that upon its discharge it is forced into the rifling, where it acts as a seal to prevent the escape of the gas formed by the exploding powder and gives the shell the required rotary motion, which keeps it on its true course with its point always in a direct line ahead.—London Tit Bits.

52 AUTOS CARRY PICNICKERS TO WATERLOO FOR THE DAY

The Fayette County Fish and Game Association members are having the time of their lives at Waterloo, on Deer Creek.

Early Thursday morning the great string of automobiles—52 in number—left this city, and with banners flying, horns tooting and other indications that the entire bunch was very much alive and anticipated a day of genuine sport, the procession of autos, big autos and little autos, with engines whirring and popping restlessly, wended its way out of town, up the Columbus pike and east on the Waterloo pike, to Waterloo. Crowds cheered the party at various places along the way.

The start was made shortly before eight and the entire party reached Sweet Briar Ridge at 8.30, with not so much as a single puncture to delay the sportsmen. Fishing tackle and bait—real bait—and bulging boxes, baskets and bundles were very

KELLER NOW LEADS THE QUIET LIFE

The following sketch concerning Lee Keller, son of Perry Keller, formerly well known resident of this city, is from Stubbs's Weekly, published at Sandusky, Ohio:

LEE KELLER AND THE CIRCUS.

Twenty-three years ago Lee Keller clerk of the Sandusky school board, lived in Washington C. H. The C. H. stands for court house. He had mastered the trombone and was one of the expert musicians which Washington C. H. turned adrift in those days. In fact the city still turns them adrift, and when any circus or "operee" company wants a good musician they write Washington C. H. Lee had never been away from home until John Robinson hit the town with his circus, the same one which comes to Sandusky next week. Old John looked at young Lee after hearing him play the trombone and then went to Lee's father and said he wanted Lee on the road for a year. He promised to take good care of him and incidentally show him the world. Lee blew his horn in the Queen of Sheba's tent, a musical extravaganza, of merit for a traveling circus. He blew it in every town from Podunk California

to Sleepy Hollow, N. Y. Then he came to Sandusky and has since ceased to blow his horn. They were the happy days. Only those who have had the wanderlust, know what it is to have lived through the thrill and excitement of "what town do you go from here" life, the ever-ready lunch rooms with an egg sandwich, a cup of coffee and a hunk of apple pie.

But Lee had another trade beside blowing an old trombone. His side line was taking care of people who were dead. That's why he came here. He picked Sandusky over all towns he ever visited as the most beautiful residence city. Michael McAdams, the veteran minstrel man who goes on the road year after year, always returns here because he, too, believes Sandusky is one of the finest cities in the U. S. A. And so we might go on and name others. The average Sanduskyan cannot understand why learned men, top notchers in their profession, should make Sandusky their home. Briefly its the town and the environment. Lee Keller has proven himself a conscientious, public-spirited citizen, who has worked hard for the city's good.

WHEAT HARVEST IS NEAR AT HAND

Once more wheat harvest is near at hand, and the farmers are preparing for the big event by purchasing new binders, twine and other material and by July 1st the harvest will be under way.

The grain, with proper weather, will ripen quickly, and most of the farmers are expecting a big yield.

However, a local grain dealer states that reports indicate that the Hessian fly and joint worm have caused heavy damage to the Fayette crop, and he estimates that in many instances a half crop will be the result.

TOE IS BROKEN WHEN SWING FALLS

Kenneth Kerr sustained a severe injury of the right foot Tuesday evening, and as the result is walking about with the indispensable aid of a cane.

Kenneth was one of a porch party of young people and was standing behind a bench swing containing two or three persons. One of the chains supporting the swing broke and the unloosed end of the bench came down on his foot. One toe was fractured and another badly bruised.

BASEBALL

Another View of It.

The Wilmington Journal of this week, commenting upon the game here last Sunday between the Wilmington Clintons and the local Athletics, concedes that "Washington did nobly," but was "outclassed," also that "the odds are that the stalwart Clintons will take the series in "straight-away fashion."

The Wilmington scribe has the "home town" spirit all right. It may be interesting to observe what he will have to say concerning the drubbing the Clintons are due to get on their own grounds July 11.
